

Acknowledgements

It is indeed a very pleasant task for me to gratefully acknowledge the help and encouragement I received from various sources during my tenure at Nuclear Science Centre, New Delhi.

I am indebted to my Ph.D. guide and supervisor Dr. A. K. Sinha (Nuclear Science Centre) for his concern and encouragement during the course of this work. The amiable discussions I had with him gave me a better insight into the thesis problem.

I am extremely grateful to Prof. G. K. Mehta, Director, Nuclear Science Centre, for his kind words of appreciation and for taking a personal interest in my progress inspite of his busy schedule.

My thanks and appreciation are due to all the members of HIRA group - Mr. N. Madhavan, Mr. J. J. Das, Mr. P. Sugathan, Mr. D. O. Kataria, Mr. A. Jhingan, Mr. T. Varghese, Mr. S. Nath and Dr. A. K. Sinha, for their willing co-operation and help during the experiments and otherwise.

My cordial thanks to Dr. S. K. Datta, Dr. R. K. Bhowmik, Dr. Amit Roy, Dr. D. Kanjilal, Dr. D. K. Avasthi, and Dr. A. Mandal (NSC) for their useful suggestions and advice.

My thesis work would have been incomplete but for the generous help extended by Dr. K. Hagino (University of Washington, USA) in the calculations for our data.

I express my deep regards for Prof. C. V. K. Baba (TIFR), Prof. Raghuvir Singh (Delhi University), Dr S. Kailas (BARC), Dr K. M. Varier (Calicut University) and Dr M. C. Radhakrishnan (Bangalore University) for sparing their valuable time to pursue useful discussions.

I had the pleasure of meeting Dr. Neil Rowley (Strasbourg), Dr. A. M. Stefanini (INFN), Dr. Peter Egelhof (GSI) and Dr. M. Dasgupta (ANU) and I am extremely grateful for their pertinent suggestions and encouragement.

I sincerely appreciate the efforts by the Pelletron group - Mr. Rajan Joshi, Mr. S. Chopra, Mr. S. Gargari and Mr. M. Sota and the Pelletron operators for ensuring the smooth conduction of my experiments. I am also thankful to Mr. D. Kabiraj and Mr. S. S. K. Sonti for their help in the preparation of the targets for the experiments.

It would be a shortcoming on my part if I fail to acknowledge the cheerful co-operation recieved from Mr. E. T. Subramaniam, Mr. S. Bhatnagar, Dr. Sumit Mookherjee, Mr. P. Barua, Mr. Ambuj Tripathi, Mr. A. Punithan, Mr. B. P. Ajith Kumar and Dr. K. Asokan as and when required.

I also acknowledge the administrative staff of NSC for their timely help. I thank every body who made my stay at NSC enjoyable and comfortable.

I am very fortunate to be surrounded by many concerned friends and well wishers, whose tireless encouragement was a source of inspiration for me to remain motivated, impediments notwithstanding. My thanks are due to all - Dr. Lagy T. Baby, Dr. Sujit Tandel, Mr. Bivash Ranjan Behera, Miss Saradee Barau, Dr.(Ms) Debarati Bhattacharya, Dr.(Ms) Aradhana Srivastava, Mr. Akhil Jhingan, Mr. S. K. Srivastava, Mr. Alok Negi, Mr. Dharam Vir Lal, Mr George Chacko, Mr. R. G. Thomas, Ms. Punita Verma, Ms. Shrabani Sinha, Mr. H. S. Patel.

Thanks are due to Dr A. Navin for his friendly suggestions and constant encouragement and help. I also enjoyed the company and help from Dr. C. P. Safvan. The help recieved from Dr. A. M. Vinodkumar, Dr S. K. Hui, Mr. P.V.M. Rao is also acknowledged.

Last but of course the utmost my family members deserve my heartfelt thanks. I am extremely grateful to my parents as it is their upbringing which made me capable enough to tackle all obstacles and move ahead. The love and appreciation of my sister Rachna, brother Tarun, my cousins Anshika, Animesh and Neelam, my aunt Mrs Asha Tripathi constantly urged me to work harder.

In the end, I thank the University Grants Commission for providing me with this opportunity to hone my scientific abilities.
