3.4.1.2 Measurement of Variables: 84
3.4.2 ASI Industry: Three Digit Level 84
3.4.2.1 Sources of Data 84
3.4.2.2 Measurement of Variables 86
3.5 Empirical Analysis: Industry Level 86
3.5.1 Three Digit Level Analysis : Partial Productivity 86
3.5.1.1 Labour Productivity 87
3.5.1.3 Capital Productivity 89
3.5.1.4 Capital Productivity Growth 90
3.5.1.5 Gross Value Added Growth 92
3.5.2 Industry Level - Total Factor Productivity Growth 93
3.5.2.1 Growth Accounting-Translog Method 93
3.5.2.2 Cobb-Douglas Production Function – TFP and TFPG 94
3.5.2.3 Cobb-Douglas Production Function -Disaggregate-Decadal-TFPG 94
3.6 Firm Level - Total Factor Productivity Growth 95
(Unit-level Analysis) 96
3.6.1 First Phase of Reform Period- Firm Level - Total Factor Productivity Growth 97
3.6.2 Second Phase of Reform Period- Firm Level - Total Factor Productivity Growth 98
3.6.3 Firm Level - Total Factor Productivity Growth, 1994-95 to 2004-05 99
3.6.4 Multilateral and Cobb-Douglas: Total Factor Productivity Growth 101
3.7 State Level Multilateral TFPG 101
3.8 Summary 102

Chapter -Four
Determinants and Structure of Employment in Electronics Industry 106-141
4.1 Introduction 106
4.2 Hypotheses 108
4.3 Specification of the Model for Employment Behaviour 111
4.3.1 The Econometric model of employment behaviour at industry level is as follows: 111
4.3.2 The Econometric model of employment behaviour at firm level is as follows 112
4.4 Data and Variables Industry level 112
4.4.1 Data sources 112
4.4.2 Variables measurement 113
4.5 Data and Variables Firm level 113
4.5.1 Data sources 113
4.5.2 Measurement of variables 113
4.6 Empirical results: Industry level 115
4.6.1 Labour Capital Ratio 115
4.6.2 Labour-Output Ratio 116
4.6.3 Employment Elasticity 117
4.6.4 Growth Rates in Man-days per employee, Real Wage and Real Rent 118
4.6.5 Growth Rates in Employment and Real Value Added
4.6.6 The Econometric model of employment behaviour at industry level
4.7 Employment function at Firm level (unit level) during the
beginning and latter reform period analysis
4.7.1 The estimated equation for the beginning of reform period at Firm
level is as follows.
4.7.2 The estimated equation for the latter phase of reform period at
Firm level is as follows:
4.7.3 The estimate of Emolument, Contract labour, Employees and
Workers at the unit level during pre- as well as post-reform period.
4.8 Disputes by Strikes, Lockouts (1994 to 2006)
4.8.1 Disputes by number of Strikes, Lockouts, 1994 to 2006
(Manufacturing industries)
4.8.2 Man-days Lost Due to Strikes and Lockouts in India
4.8.3 State-wise average monthly emoluments received by
( Electronics) Engineers and Diploma holders
4.8.4 Selected State-wise Number of Unemployed
Engineers (Electronics) in India
4.8.5 Selected State-wise Electronics Production and Employment in
India
4.8.6 State-wise Employment, Labour Productivity, No. Units and their
positions
4.9 Summary

Chapter - Five
Ownership Participation: Export Behaviour
5.1 Introduction
5.2 Factors Affecting Export Growth: Hypothesis
5.3 Specification of the model and Source of Data
5.3.1 Model
5.3.2 Source of Data
5.4 Empirical findings of export behaviour - Aggregate, Public
and Private electronics firms
5.5 Export of Electronics hardware, Computer software and IT
enabled service (1988-89 to 2006-07)
5.6 Estimated Contribution of States/UTs in Export of
Electronics & Computer Software/Services Production
5.7 Item-wise Major Export of Electronics Hardware
5.8 Major Destination for Electronics Hardware Export
5.9 Country-wise Electronics Hardware Export
5.10 Major items of Computer Hardware exports
5.11 Major Destinations for Computer Hardware exports
5.12 Top exporter of computer hardware
   Major item of export under electronics and computer
   software/services sector Table- A. 5.1
   Major Item of Consumer Electronics- Table A. 5.2
   Top exporters of Electronics Instrumentation/OE/ME - Table A. 5.3
5.13 Summary

Chapter Six

Ownership Participation: Research and Development Behaviour

6.1 Introduction 176
6.2 Factors Affecting Research and Development: Hypothesis 178
6.3 Specification of the model and Source of Data 181
  6.3.1 Model 181
  6.3.2 Source of Data 181
6.4 Empirical findings of Research and Development behaviour - Aggregate, Public and Private Electronics Companies 184
  6.5.1 Technology Acquisition in Aggregate Electronics 184
  6.5.2 Technology Acquisition in Public Electronics 185
  6.5.3 Technology Acquisition of Private Electronics 186
  6.5.4 Technology Acquisition in Central and State Government 187
  6.5.5 Technology acquisition in Foreign and Indian Private Sector 188
  6.5.6 Expenditure on Research and Development by Industry Groups for Public Sector 190
  6.5.7 Expenditure on Research and Development by states 192
  6.5.8 Expenditure on research and development by Industry Groups for the Public Sector 193
  6.5.9 Expenditure on research and development by Industry Groups for Private Sector 194
  6.5.10 Applications for Patents Filed In India from 1980-81 to 2003-04 by Foreign Countries 195
  6.5.11 Patents filed and Granted in the Years 1976-77 to 2003-04 197
6.6 Linkages between Multinational Enterprises and Local Enterprises 198

National expenditure on research and development by sector - See Appendix 6.1

National expenditure on R&D in relation to GNP/GDP- Table A. 6.2 201
Estimated Stock of S&T Personnel - Table A. 6.3 202
Researchers Per Million People for Selected Countries, 1996-2002 Table A. 6.4 202
Estimated stock of Engineering Degree holders in the working age group by selected disciplines Table A. 6.5
Application for Patents filled in India from 1980-81 to 2003-04 by Foreign countries Table A. 6.6
Faculty-wise enrolment in higher education from 1985-86 to 2003-04 Table A. 6.7
Expenditure on Research and Development by State Governments Table A. 6.8
Out Turn of scientific and technical personnel from universities in India 1947-1995 Table A. 6.9
Research and Development expenditure, Advertising expenditure, New plant and machinery expenditure versus Sales turnover in public and private sector industry. Table A. 6.10
Doctorate Degrees awarded faculty-wise (1984-85 to 2002-03) Table A. 6.11
Application for Patents filled in India from 1980-81 to 2003-04 by different states Table A. 6.12
Patents filed and granted in the years 1976-77 to 2003-04 Table A. 6.13

6.7 Summary

Chapter Seven 209-219
Conclusion

7.1 Structure and Performance of Electronics Industry 209
7.2 Electronics industry and liberalization: productivity analysis 211
7.3 Determinants and Structure of Employment in Electronics Industry 213
7.4 Ownership Participation: Export Behaviour 215
7.5 Ownership Participation: Research and Development Behaviour 217
7.6 Policy Implications 219
