

TABLE NO.	TITLE	PAGE NO.
6.1	Single crystal XRD data of ZnGuS crystal	143
6.2	Mechanical data on ZnGuS at various loads	151
6.3	Laser damage threshold values ZnGuS crystals	154
6.4	Comparision of particle size dependent SHG Efficiencies of ZnGuS and Standard KDP	156
6.5	Measurement details and the results of the Z-scan measurement	158
7.1	Single crystal XRD data of LHN crystal	167
7.2	Mechanical data on LHN at various loads	174
7.3	Laser damage threshold values of LHN crystal	178
7.4	Comparision of particle size dependent SHG Efficiencies of LHN and Standard KDP	180
7.5	Measurement details and the results of the Z-scan measurement	182
8.1	Mechanical data 1 mole % doped at various loads	200
8.2	Mechanical data 4 mole % doped at various loads	200
8.3	Mechanical data 5 mole % doped at various loads	200
8.4	Piezo-electric charge coefficient	205
8.5	Laser damage threshold values LiNbO ₃ crystals	207
8.6	Measurement details and the results of the Z-scan studies	210
8.7	Optical limiting threshold values LiNbO ₃ crystals	212
