

## LIST OF TABLES

|              |   |       |
|--------------|---|-------|
| Table: 2.1:  | Per Ton Subsidy on Fertiliser Compounds                                     | 23-25 |
| Table: 2.2   | Exponential Growth Rate of Import and Domestic Price of Different Compounds | 26    |
| Table: 2.3:  | Per Ton Subsidy on Fertiliser Nutrients                                     | 27    |
| Table: 2.4:  | Fertiliser Subsidy in India   | 28    |
| Table: 2.5:  | Composition of Fertiliser Subsidy in India                                  | 30    |
| Table: 2.6:  | Fertiliser Subsidy in Haryana   | 32    |
| Table: 2.7:  | Composition of Fertiliser Subsidy in Haryana                                | 33    |
| Table: 2.8:  | Comparison of Fertiliser Subsidy: India and Haryana                         | 35    |
| Table: 2.9:  | Electricity Subsidy to Agriculture Sector in India                          | 38    |
| Table: 2.10: | Electricity Subsidy to Agriculture Sector in Haryana                        | 41    |
| Table: 2.11: | Comparison of Electricity Subsidy: India and Haryana                        | 43    |
| Table: 2.12: | Irrigation Subsidies- Major, Medium and Minor Irrigation India (NAS Basis)  | 47    |
| Table: 2.13: | Irrigation Subsidies- Major, Medium and Minor Irrigation in India           | 48    |
| Table: 2.14: | Exponential Growth Rate of Irrigation Subsidy in India                      | 49    |
| Table: 2.15: | Irrigation Subsidies- Major, Medium and Minor Irrigation in Haryana         | 50    |
| Table: 2.16: | Comparison of India and Haryana: Irrigation Subsidy                         | 51    |
| Table: 2.17: | Total Input Subsidy in India  | 52    |
| Table: 2.18: | Composition of Input Subsidy in India (Rs. Per Acre Subsidy)                | 54    |
| Table: 2.19: | Total Input Subsidy in Haryana  | 56    |
| Table: 2.20: | Composition of Input Subsidy in Haryana (Rs. Per Acre Subsidy)              | 58    |
| Table: 2.21: | Comparison of India and Haryana: Total Subsidy                              | 60    |
| Table: 3.1:  | Name of Districts, Blocks and Villages Selected for Primary Survey          | 75    |
| Table: 3.2:  | Population Details of Sampled Households                                    | 79    |
| Table: 3.3:  | Educational Profile of Sampled Household                                    | 80    |
| Table: 3.4:  | Occupational Structure of Sampled Households                                | 81    |
| Table: 3.5:  | Asset Profile of Sampled Households   | 83    |
| Table: 3.6:  | Land Profile of Sampled Households  | 84    |
| Table: 3.7:  | Cropping Pattern  | 86    |
| Table: 3.8:  | Yield level of Important Crops  | 88    |
| Table: 3.9:  | Farm Wise Input Subsidy (Per Acre)  | 90    |
| Table: 3.10: | Farm Wise Input Subsidy (Per Household)                                     | 92    |
| Table: 3.11: | Composition of Input Subsidy  | 93    |
| Table: 3.12: | Farm Wise Input Subsidy (Electrical Pumpset Owners) (Per Acre)              | 95    |
| Table: 3.13: | Farm Wise Input Subsidy (Electrical Pumpset Owners) (Per Household)         | 97    |
| Table: 3.14: | Composition of Input Subsidy (Electrical Pumpset Owners)                    | 98    |
| Table: 4.1:  | Comparison of Profitability with and without Input Subsidy: Wheat           | 102   |
| Table: 4.2:  | Comparison of Profitability with and without Input Subsidy: Sugarcane       | 104   |

|              |   |     |
|--------------|---|-----|
| Table: 4.3:  | Comparison of Profitability with and without Input Subsidy:<br>Paddy  | 106 |
| Table: 4.4:  | Comparison of Profitability with and without Input Subsidy:<br>Basmati  | 108 |
| Table: 4.5:  | Comparison of Profitability with and without Input Subsidy:<br>Cotton   | 109 |
| Table: 4.6:  | Comparison of Profitability with and without Input Subsidy:<br>Mustard  | 111 |
| Table: 4.7:  | Comparison of Profitability with and without Input Subsidy:<br>Barley   | 113 |
| Table: 4.8:  | Comparison of Profitability with and without Input Subsidy:<br>Pulse  | 115 |
| Table: 4.9:  | Comparison of Profitability with and without Input Subsidy:<br>Gram   | 116 |
| Table: 4.10: | Comparison of Profitability with and without Input Subsidy:<br>Bajara   | 118 |
| Table: 4.11: | Comparison of Profitability with and without Input Subsidy:<br>Fodder crops   | 120 |
| Table: 4.12: | Comparison of Profitability with and without Input Subsidy:<br>Vegetables   | 122 |
| Table: 4.13: | Comparison of Crop Wise Input Subsidy   | 123 |
| Table: 4.14: | Comparison of Crop Wise Profitability (without Input Subsidy)   | 125 |
| Table: 4.15: | Comparison of Profitability with and without Input Subsidy: Whole<br>Agriculture Sector   | 126 |
| Table: 4.16: | Problems in Access to Subsidies   | 128 |
| Table: 5.1:  | Extent of Market Price Support to Wheat in Haryana  | 138 |
| Table: 5.2:  | Extent of Market Price Support to Rice in Haryana   | 140 |
| Table: 5.3:  | Extent of Market Price Support to Sugar in Haryana  | 141 |
| Table: 5.4:  | Extent of Market Price Support to Cotton in Haryana   | 143 |
| Table: 5.5:  | Extent of Product-Specific Support to Agriculture in Haryana (Import<br>Hypothesis)   | 144 |
| Table: 5.6:  | Extent of Product-Specific Support to Agriculture in Haryana (Export<br>Hypothesis)   | 145 |
| Table: 5.7:  | Extent of Seed Subsidy to Agriculture in Haryana  | 146 |
| Table: 5.8:  | Extent of Credit Subsidy to Agriculture in Haryana (Medium and Large<br>Farmer)   | 148 |
| Table: 5.9:  | Extent of Non-Product Subsidy to Agriculture in Haryana   | 149 |
| Table: 5.10: | Extent of Total Aggregate Measurement of Support to Agriculture in<br>Haryana   | 151 |
| Table: 5.11: | Extent of Total Aggregate Measurement of Support to Agriculture in<br>Haryana (as a percentage of Total Value)                      | 152 |
| Table: 5.12: | Extent of Total Aggregate Measurement of Support to Agriculture in<br>Haryana (as a percentage of Agriculture GDP)                  | 153 |
| Table: 5.13: | Extent of Total Aggregate Measurement of Support to Agriculture in<br>Haryana (Three Year Average) (as a percentage of Total Value) | 154 |

|             |  |     |
|-------------|--|-----|
| Table 5.14: | Extent of Total Aggregate Measurement of Support to Agriculture in Haryana (Three Year Average) (as a percentage of GDP) | 155 |
| Table 6.1:  | Various Indicators of the Competitiveness of Wheat (Exportable Hypothesis)   | 168 |
| Table 6.2:  | Various Indicators of the Competitiveness of Wheat (Importable Hypothesis)   | 170 |
| Table 6.3:  | Various Indicators of the Competitiveness of Rice (Exportable Hypothesis)  | 171 |
| Table 6.4:  | Various Indicators of the Competitiveness of Rice (Importable Hypothesis)  | 172 |
| Table 6.5:  | Various Indicators of the Competitiveness of Cotton (Exportable Hypothesis)  | 173 |
| Table 6.6:  | Various Indicators of the Competitiveness of Cotton (Importable Hypothesis)  | 175 |
| Table 6.7:  | Various Indicators of the Competitiveness of Sugar (Exportable Hypothesis)   | 176 |
| Table 6.8:  | Various Indicators of the Competitiveness of Sugar (Importable Hypothesis)   | 177 |
