Acknowledgement

I would like to thank each and every person, who supports me and encouraged me during this journey. The first blessing always comes from God, who give chance to contribute our efforts and gives something to the world. I bow my head humbly before the Almighty God for making me capable of completing my Ph.D. Thesis; with his blessings only I have accomplished this huge task. I express thankfulness to my guide Prof. Anamik K Shah who always give us creative dimensions, thinking analyzing capacity and positive attitude, which always helped me in making, think simple and pragmatic too. I am much indebted to his inspiring guidance, affection, generosity and everlasting enthusiasm throughout the tenure of my research work.

The thesis arose in part out of years of research that has been done since I came to under the guidance of Dr. Ranjan C. Khunt, who supported my aspirations with lot of inspiration and encouragement. I really consider me to be lucky and privilege to work with her futuristic direction, guidance and suggestions. I would like to thank Centre of Excellence, NFDD, Department of Chemistry, Saurashtra University, for giving me an opportunity to work in NMR laboratory for my thesis work.

I am also thankful to Prof. V. H. Shah, Professor and Head, Department of Chemistry, Saurashtra University, Rajkot for his encouragement and providing adequate research facilities. I express my humble appreciation to Prof. H.S. Joshi, Prof. H. D. Joshi and Dr. Bipin Pandey for their kind support and guidance. The generous sharing of the essence of enormous experience they taught me a lot, and provided new heights to my research aptitude. I like to mention a special thanks to Dr. Ranjanben Shah for their kind support in personal matter and making me feel like home.

I am equally thankful to all of the teaching and non-teaching staff for extending help.
