List of Tables	viii
List of Figures	xi
1. INTRODUCTION	1
1.1 Introduction	1
1.2 Statement of the Problem	2
1.3 An Overview of Literature	4
1.3.1 Conceptualizing Groundwater as a Resource	4
1.3.2 Reasons for Development of Groundwater Irrigation	4
1.3.3 Decline in Groundwater Tables	6
1.3.4 Reasons of Depletion of Groundwater	7
1.3.5 Externalities Arising out of Groundwater Depletion	10
1.3.6 Role Groundwater Markets in Reducing Inequality to Access to Groundwater Irrigation	13
1.3.7 Issues on Property Rights of Groundwater	18
1.3.8 Farmers' Perceptions and Policy Implications of Depleting Groundwater	20
1.3.9 Emerging Issues	23
1.4 Objectives of the Study and Research Questions	25
1.5 Framework of Analysis	27
1.6 Methodology	28
1.6.1 Time Frame and Aggregation of Spatial Units	29
1.6.2 Primary Surveys and Sample Design	30
1.6.3 Focus Group Discussions	33
1.6.4 Statistical Techniques	34
1.7 Data Base	36
1.8 Geographical Personality of the Study Area	37
1.9 Organization of the Study	39

2. CHANGING IRRIGATION STRUCTURE AND SHIFTS IN CROPPING PATTERN	41
2.1 Extent and Intensity of Irrigation in Punjab	43
2.2 Extent and Intensity of Irrigation in Punjab: District Level Analysis	45
2.3 Changing Irrigation Structure in the State of Punjab	48
2.4 Changing Irrigation Structure in Punjab – District Level Analysis	51
2.5 Cropping Pattern Shifts in Punjab	56
2.6 Degree of Crop Specialization in Punjab	59
2.7 Shifts towards Wheat–Rice Crop Combination: Analysis of Area under Rice and Wheat in Punjab	61
2.8 Shift towards Wheat–Rice Crop Combination: Analysis of Decline in Area under Course Cereals, Pulses and Oilseeds	66
2.9 Area under Cotton and Sugarcane	69
2.10 Changing Water Demand in Agriculture	72
2.11 Interrelationship between Increasing Demands of Irrigation Water and Increase in Groundwater Irrigation	74
3. GROUNDWATER AVAILABILITY AND ITS EXPLOITATION	79
3.1 Availability and Use of Groundwater at the National Level	80
3.2 Availability and Use of Groundwater in Punjab	82
3.3 Availability and Use of Groundwater in the District of Amritsar	85
3.4 Extent of Groundwater Over-exploitation	87
3.5 The Causes of Groundwater Over-Exploitation	92
4. GROUNDWATER DEPLETION AND PROFITABILITY OF AGRICULTURE	97
4.1 Relative Profitability of Agriculture across Different Irrigation Systems	98
4.1.1 Comparative Analysis of Profitability of Wheat and Rice Cultivation in Different Irrigation Systems	100
4.1.2 Comparative Analysis of Profitability of Different Crop Combinations in Different Irrigation Systems	109
4.2 Relative Profitability of Agriculture across Different Landholding Groups	112
4.2.1 Comparative Analysis of Profitability of Rice and Wheat in Different Irrigation Systems across Different Landholding Groups	114

5. ISSUES RELATED TO ACCESSIBILITY TO DEPLETING GROUNDWATER RESOURCE FOR IRRIGATION	125
5.1 Determinants of Groundwater Accessibility	129
5.1.1 Groundwater Ownership	130
5.1.2 Tube-well Economy and Groundwater Ownership	130
5.1.3 Land Ownership and Accessibility to Groundwater	134
5.1.4 Ownership of Wells and Access to Groundwater	144
5.1.5 Nature of Ownership of Wells and Access to Groundwater	148
5.1.6 Spacing of Wells and Groundwater Accessibility	158
5.2 Groundwater Utilization	161
5.2.1 Groundwater Irrigation and its Utilization	161
5.2.2 Cropping Pattern and Groundwater Utilization	163
5.3 Electricity Subsidy and Groundwater Accessibility	168
5.4 Access to Market Subsidies and Groundwater Accessibility	174
5.5 Equity to Groundwater Irrigation Accessibility	177
6 GROUNDWATER MARKETS AND ITS IMPLICATIONS ON ACCESS TO GROUNDWATER IRRIGATION	185
6.1 Groundwater Markets Defined	187
6.2 Structure of Groundwater Markets	188
6.3 Reasons for buying and selling of Groundwater for Irrigation	195
6.4 Terms of Water Transactions and Modes of Functioning of Groundwater Markets	197
6.5 Social Institutions and Dynamics of Water Buying and Selling	206
6.6 Evolution of Groundwater Markets	209
6.7 Groundwater Market Development and Agrarian Change	220
6.8 Impact of Groundwater Markets on Accessibility to Groundwater Irrigation	225
6.8.1 Cropping Pattern	225
6.8.2 Groundwater Markets and Yield Realisation	227
6.8.3 Costs and Returns from Crops	229
6.9 Groundwater Markets and Electricity Subsidisation	232
6.10 Groundwater Markets and Accessibility of Groundwater Irrigation	233

7 FARMERS' PERCEPTION AND RESPONSE TO GROUNDWATER DEPLETION	240
7.1 Farmers' Decisions on the Cropping Pattern	240
7.2 Farmers' Attitude towards Tube-well Interference	248
7.3 Farmers' Reaction to Electricity Subsidy	250
7.4 Coping Strategies Adopted and Be Adopted in Future by the Farmers	260
7.5 Farmers' Suggestions to Groundwater Regulation	263
8 CONCLUSIONS AND POLICY IMPLICATIONS	266
8.1 Summary and Conclusion	267
8.2 Conclusions and Policy Implications	274
8.3 Research Gaps and Future Directions	280
Bibliography	282
Appendices	291
