

LIST OF FIGURES

	Page No.
1.1 Sample Design	31
1.2 Sample Design for Each Stratum	32
1.3 Homogeneous Focus Groups	33
1.4 Location of the Study Villages	38
2.1 Extent of Irrigation in Punjab (1970 – 2006)	44
2.2 Trend of Irrigation Intensity in Punjab (1970 – 2006)	45
2.3 Extent of Irrigation in the Districts of Punjab (1980 -2005)	46
2.4 District-wise Trend of Irrigation Intensity (1970 – 2005)	46
2.5 Percentage of Net Irrigated Area in Punjab by Sources (1970 - 2006)	49
2.6 Area under Important Crops in Punjab (1980 - 2006)	57
2.7 Trend in Crop Specialization in Punjab (1980 – 2006)	60
2.8 Trends in Area under Rice and Wheat in Punjab (1980 – 2006)	61
2.9 District-wise Area under Rice in Punjab (1980 - 2005)	64
2.10 District-wise Area under Wheat in Punjab (1980 - 2005)	64
2.11 Trends in Area under Maize in Punjab (1980 - 2006)	66
2.12 District-wise Area under Maize in Punjab (1980 - 2005)	66
2.13 Trends in Area under Pulses in Punjab (1980 - 2006)	67
2.14 District-wise Area under Pulses in Punjab (1980 - 2005)	67
2.15 Trends in Area under Selected Coarse Cereals in Punjab (1980 - 2006)	67
2.16 Trends in Area under Different Oilseeds in Punjab (1980 - 2006)	67
2.17 Trends in Area under Oilseeds in Punjab (1980 - 2006)	68
2.18 District-wise Area under Oilseeds in Punjab (1980 - 2005)	68
2.19 Trends in Area under Cotton in Punjab (1980 - 2006)	70
2.20 District-wise Area under Cotton in Punjab (1980 - 2005)	70
2.21 Trends in Area under Sugarcane in Punjab (1980 - 2006)	70
2.22 District-wise Area under Sugarcane in Punjab (1980 – 2005)	70
2.23 Rice Cultivation and Groundwater Irrigation (1970 - 2006)	76
2.24 Trend Diesel and Electricity Operated Wells in Punjab (1970 - 2005)	77
2.25 District-wise Tube-Wells Energized in Punjab (1980 - 2005)	77
3.1 Percentage of Groundwater Draft Used for Irrigation	81

3.2 Stage of Groundwater Development in India	81
3.3 Percentage of Groundwater Draft Used For Irrigation in Punjab	84
3.4 Stage of Groundwater Development in Punjab	84
3.5 Percentage of Groundwater Draft Used For Irrigation in Amritsar	86
3.6 Stage of Groundwater Development in Punjab	86
3.7 Extent of Groundwater Exploitation	88
3.8 Trend of Groundwater Exploitation in Punjab	89
3.9 Extent of Groundwater Exploitation in the Districts of Punjab	90
3.10 Crop Combination Regions in Punjab	95
3.11 Groundwater Depletion in Punjab	95
5.1 Economy of Groundwater Exploitation	133
5.2 Average Number of Operational Tube- Wells across Farm Size Categories in Different Irrigation Systems	146
5.3 Depth of Wells across Different Size Classes in Different Irrigation Systems	147
5.4 Land Irrigated Per Well Across Different Land Holding Classes in Different Irrigation Systems	148
5.5 Sole Well Ownership across Farm Size Classes in Different Irrigation Systems	149
5.6 Sole Ownership of Wells across Landholding Classes in Different Irrigation Systems	149
5.7 Shared Tube Well Ownership across Farm Size Classes in Different Irrigation Systems	152
5.8 Area of Influence and Interference among Water Extraction Machines	159
5.9 Area under Rice across Landholding Classes in Different Irrigation Systems	166
5.10 Area under Wheat across Landholding Classes in Different Irrigation Systems	166
5.11 Groundwater Exploitation across Different Landholding Classes in Different Irrigation Systems	166
5.12 Physical Access to Groundwater Irrigation across Farm Size Categories in Different Irrigation Systems	179
5.13 Physical Accessibility of Groundwater irrigation per Unit of Holding Size	179
5.14 Economic Accessibility to Groundwater Irrigation	179
5.15 Inequality in Distribution of Net Returns to Cultivation among Farmers in Different Irrigation Systems	181
6.1 Groundwater Exploitation and Agrarian Change	224
6.2 Groundwater Exploitation and Agrarian Change at the Household Level	224
7.1 Reasons for Growing Rice in Different Irrigation Systems	244
7.2 Reasons for Growing Wheat in Different Irrigation Systems	245

7.3 Farmers Decision to Grow Rice and Wheat in Absence of High MSP and Free Agricultural Electricity	247
7.4 Farmers' Satisfaction Regarding Electricity Supply across Different Irrigation Systems	251
7.5 Willingness to Pay User Charges by Farmers	257
