"Professional College" means a College established or maintained by the University or affiliated to the University and providing courses of study leading up to the professional degrees of the University. The roles of these professional Institution have been variously defined: "A group of people in a learned occupation who are entrusted with maintaining control or oversight of the legitimate practice of the occupation;"also a body acting "to safeguard the public interest; organizations which "represent the interest of the professional practitioners," and so "act to maintain their own privileged and powerful position as a controlling body

This, in turn, places the burden of enforcing a profession ban upon this Institution as well. Many professional bodies are involved in the development and monitoring of professional educational programs, and the updating of skills, and thus perform professional Institution to indicate that a person possesses qualifications in the subject area. Sometimes membership of a professional body is synonymous with certification, though not always. Membership of a professional body, as a legal requirement, can in some professions form the primary formal basis for gaining entry to and setting up practice within the profession. The formal system of education to a large extent undermined the strengths of the social and corporate life of the tribal’s. The creative thinking shown by students in the outdoor programmes, physical exercises, entertainment and other socio cultural activities of life is not sufficiently recognized. In general, what the schools offer has failed to enthuse students to freely and actively participate in the process of learning. Crowded classrooms, heavy syllabus, the method of teaching, lack of appropriate learning materials and other aids and amenities tended to make education, to the otherwise active, energetic and creative tribal adolescent, a psychological burden rather than a joyous experience.

The concept of strategy which is useful in institute purpose arises out of cognitive psychology and has become increasingly used by student of interaction data. A second way in which the notion of strategy is employed arises out of cognitive psychology and has become increasingly used by student of interaction data.
Meaning of certain strategy is that the way to get clear about the concept of language, or about the concept of conventional meaning, is to start with a genus meaning and then proceed through the differentia convention to the species conventional meaning.

For evaluating enrolling strategies this study is divided into four sections first is Academic and Research Environment, Infrastructure Status and development, Extracurricular Activity and Placement and marketing Strategies. This study is mainly based on primary data so data is collected by various students and management body (employee, staff, management etc.) of professional institutions. For data collection on Likert base questionnaire is prepared that also divided into four part as mentioned above. Result prepared by the help of t- test, factor analysis, post hoc test and Regression analysis. After data analysis findings are prepared by on the bases of result. On the bases of results valuable suggestion is given.
