ACKNOWLEDGEMENTS

I would not have accomplished anything in my life without God’s blessings and without the people behind my life for inspiring and accompanying me through thick and thin. I take this opportunity to acknowledge all those involved directly or indirectly in the successful realization of the thesis.

It gives me pleasure to express my deep sense of gratitude to my Research Supervisor Dr. Chinta Sudhakar, professor, Department of Botany, Sri Krishnadevaraya University, Anantapur, India for his professional supervision, obliging suggestions and affable endorsement, the most admirable and amiable supervision. His encouragement was instrumental in successful completion of this work. I acknowledge his dynamic celebrity and genial thinking were always a source of incentive in all the phases of experimentation and decisive analysis.

I humbly express my deep sense to gratitude to Prof. S. Thimma Naik, Head of the Department, Prof. R. R. V. Raju, Dean, Faculty of life sciences, Prof. B. Ravi Prasad Rao, Chairman, BOS, and Dr. S. Sandhaya Rani, Assistant Professor, Department of Botany, Sri Krishnadevaraya University, Anantapur for their encouragement, kind co-operation, and providing me necessary atmosphere to complete the work.

I am thankful to Dr. Seung Won Kang and Dr. Kim, NVRQS, Seoul, South Korea for doing some experimental works in their labs.

I convey my sincere thanks Dr. P. Chandraobul Reddy, Assistant Professor, Yogi Vemana University, Kadapa, Dr. G. V. Nagamallaiah, Academic consultant, Yogi Vemana University, Kadapa, Dr. M. Thippeswamy, Post Doctoral Fellow, IISC, Bangalore, Dr. G. Ranganayakulu, Academic consultant, Rayalaseema University, Kurnool and Dr. K. Madhusudan, Lecturer, Govt. Degree college, Penukonda, and for their extensive co-operation during my work.

I am pleased to convey gratitude to my labmates Sudhakar, Naresh, Kiran, Amar, Kiranmai and Lokesh.

I convey my sincere thanks to my beloved brother M. Ramakrishna Reddy, Pulivendula, for his affable guidance and un-sustained encouragement in completion of this work.

I am thankful to my senior scholars M. Shiva Kumar, M. Manju Latha and M. Pandu for their discussions and suggestions with a great intimacy when working problems arise.

I also sincerely thankful to Sundar for his cooperation and suggestions when working problems arise. I extend my thanks to Research Scholars of the Department, Prasad, Salamma, Swetha, Veeranjaneyulu, Beheemalingappa, Saroja, Rajasekhar, Ramesh, Meeravali, Madhubabu, Seenaiah, Sunnetha, Ravindra, Jyothi, Kullayi Swamy.
I am thankful to non-teaching staff, Department of Botany, Venkatappa, Mareppa, Kullayappa, Tirupalu, Anjaneyulu, Akkulappa and Ramu for their co-operation.

At last, when I think of my parents, Smt. M. Vijaya, and Sri. M. Nageswar Reddy, my beloved brother, Arju, my sisters, Sowmya and Saranya, brother-in-law Devanath Reddy, aunt Rama and uncle Sudarsan Reddy, joy and gratitude find no bounds for what they have sacrificed for me. This piece of work could see the light of day only due to their stoical attitude, inspiration, perseverance, encouragement and keenness in the form of their affection.

Above all my words fail to express my indebtedness to my uncles K. Bayapa Reddy, K. Adinarayana Reddy and aunties Mrs. Narayanamma and Mrs. Adilakshmi without their constant love, patience it would have been impossible for me to be where I am now. To thank them in words is belittling their efforts but while acknowledging other names can never stand before them.

Last but not least I find immense pleasure in extending my brimful thanks to my beloved better-half K. Eswar Narayana Reddy, who stood always with me in encouraging fulling, instilling, rejuvenating, the powers in me.

Finally, I would like to thank everybody who was important to the successful completion of thesis, as well as expressing my apology that I could not mention personally one by one.

M. RAMYA
