ACKNOWLEDGEMENTS

Writing this thesis has been fascinating and a truly life changing experience for me. I would like to thank a number of people who have supported and guided me for successful completion of Ph. D thesis.

To commence with, I pay my obeisance to GOD, the almighty to have bestowed upon me good health, courage, inspiration, zeal and peace. After GOD, I express my sincere and deepest gratitude to my Supervisor, Dr. N. Ravi Kumar, Professor, Department of Mechanical Engineering, M.V.G.R College of Engineering (A), Vizianagaram, Andhra Pradesh, Co-Supervisor, Prof. Smt. G. Prasanthi, Director, Industrial Relations & Placements and, School of Continuing and Distance Education, JNTUA, Ananthapuramu, Andhra Pradesh, for their invaluable guidance, affectionate attitude, constant encouragement and cooperation throughout my research work. I am highly grateful to them for providing all the facilities for the completion of the thesis. Without their continual inspiration, it would have not been possible to complete this research work.

I extend my heartfelt thanks to all the JNTUA authorities for giving me this opportunity and supporting me at every stage of my Ph.D. work.

I gratefully acknowledge, University Grants Commission (UGC) and All India Council for Technical Education (AICTE), Govt. of India, New Delhi, for their financial assistance under minor research project scheme (MRPS) and Research Promotion Scheme (RPS).

I am immensely indebted to Prof. K. V. L Raju, Principal, MVGRCE-VZM, for the support and the academic freedom he has given to pursue my research work.

I take this opportunity to thank Prof. R. Ramesh, Dean R & D, Department of Mechanical engineering, Prof. S. Adinarayana, Head of the department, Mechanical Engineering, MVGRCE-VZM, for their encouragement and valuable suggestions during my research work.
I also thank G. Rajesh, faculty of Mechanical Engineering, MVGRCE-VZM for his support and cooperation throughout the research work.

I extend my sincere thanks to G. Koti and P. Varma, Lab technicians of IC Engines laboratory of Mechanical Department, MVGRCE-VZM, for their valuable support during experimentation process.

I also thank all the teaching and non teaching faculty of Mechanical Engineering, MVGRCE-VZM for their support and cooperation throughout the research work.

I would like to pay heartfelt gratitude to my beloved parents Sri. B. Venkataramana Raju & Smt. B. Lakshmi Devi, my sister Smt. T. Sravani Sudha, my brother-in-law Sri. T. Vikram Kumar Varma, and my cousin Smt. Ch. Sandhya, for their constant encouragement, motivation and everlasting love and inspiration. I am indebted to them for their much appreciated vision towards my life.

I am highly indebted to my better-half Smt. B. Vineela for her patience and understanding during the period of my research work. Without her caring and support, I would not have been able to complete the thesis.

Last, but not the least, I gratefully acknowledge to all those who directly or indirectly helped me at various stages of this research work.

Madhava Varma
