ACKNOWLEDGEMENT

Any achievement, be it scholastic or otherwise does not depend solely on the individual efforts but on the guidance, encouragement and cooperation of intellectuals, elders and friends. A number of personalities in their own capacities have helped me in carrying out this research work. I would like to take this opportunity to thank them all.

First of all I would like to thank our beloved Vice Chancellor, Prof. Mohammed Moulana Mohiuddin Sarcar and former Vice-chancellor Dr. K. Krishna Gandhi Jawaharlal Nehru Technological University Anantapur, Anantapuramu (Ap), India for providing an opportunity to do Ph.D Research work and their help and inspiration during the tenure of this course.

I also take this opportunity to express my sincere thanks to Dr. H. Sudarsana Rao, Rector, Academic and Planning, JNTUA, for encouraging me to carry-out research at JNTUA, Ananthapuramu (AP), India.

Its my pleasure to express our deepest gratitude and sincere thanks to Dr. S. Lokesh, Associate Professor, DOS in Biotechnology, University of Mysore, Myusru-570 006 (Karnataka) and Dr. K. B. Chandrasekhar, Professor of Chemistry and Director, Oil Technological Research Institute, Jawaharlal Nehru Technological University Anantapur, Ananthapuramu- 515 002 (AP), India for their guidance, encouragement and cooperation throughout my Research work.

I also express my deep sense of gratitude to Dr. Rayankula Naidu, Director, CSRF, Shridevi Institute of Engineering & Technology, Sira Road, Tumkur (2010-2012) and Director, Bhoomigeetha Institute of Research and Development (BIRD), Tumkur (2012 onwards) for providing facilities to execute my Research programme and also for a valuable platform along with the suggestions during the tenure of my Ph.D.

I profoundly express my grateful thanks to Prof. G. Puttaramaiah, Deputy Director, Bhoomigeetha Institute of Research and Development (BIRD), Tumkur who was a source of inspiration to me and other faculty members of Biotechnology Department for their cooperation and assistance during the execution of my Ph.D work.
I owe my special thanks to Prof. Sudhaker Rao and Prof. K. G. Bhat, Retd. Professors of Poornaprajna College, Udupi, Karnataka for their help and support during my Ph.D research.

My sincere gratitude to all my friends and Scholars of CSRF, SIET, BIRD Organization, AIT and all other supporting staff of the various Departments of SIET and AIT, Tumkur for their encouragement and help at all the time.

I wish to thank Prof. Akheel Ahamad, Professor of Chemistry, University of Mysore and Former Vice-Chancellor of Yenapoye University (Mangalore, Karnataka) and Prof. D.C. Channe Gowda, Professor of Chemistry (Rtd.) for their valuable suggestions and inputs given me throughout the writing process.

I, also wish to thank Ravishankar H.G. for being my Associate during my field work and Base-line survey at Biligirirangana Hill area and also for collection of Ethnomedicinal plant drugs and their formulations from Tribal Medicine Men.

I also want to thank the Tribal medicine Men of Biligirirangana Hills (B.R Hills), Chamarajanagara district (Karnataka) their smiles and willingness to help me do my research touched my heart.

My sincere thanks goes to Dr. Jade Gowda, Dr. Made Gowda, Mr. Puttaranga, Mr. Upendra and everyone else at Biligirirangana Hills, VGKK, ATREE, I could not have done my research without their cooperation and valuable help.

I also wish to thank everyone at B.R. Hills field station, Bharath Sundaram for being a good friend, and all Forest Officials for their approval, cooperation and kind help throughout the study.

I am indebted to my Wife, Dr. Leelaja P. Murthy and Children, Nisarga P. Rangham and Nrupathunga P. Rangham for their love, affection, cooperation, support and encouragement. I could not have done this without their help and assistance.

At last, I wish to thank my Parents, Brothers and Friends for their enthusiasm during my education and for giving me the love I have for India.

PANDURANGA MURTHY G
