Certificate of the Guide	ii
Declaration	iii
Acknowledgment	iv
Abstract	v
Table of Contents	x
List of Tables	xvii
List of Figures	xxi
List of Abbreviations	xxiii
Chapter 1: Introduction	1 – 16
1.1 Background of the Study	1
1.2 Background of Work Life Balance	2
1.2.1 Shift from Traditional to Contemporary view	2
1.2.2 What is Work Life Balance?	3
1.2.3 Work Life Balance in 21 st Century	5
1.3 Work Life Balance and Doctors	5
1.3.1 Work Life Balance Programs in Hospitals	6
1.4 Work Life Balance in India	9
1.5 Indian Healthcare System's Current Scenario	10
1.5.1 Doctors' Workforce Statistics in India	11
1.5.2 Increasing Problems of Doctors within Indian Healthcare	12
1.6 Rationale for the Study	13
1.7 Conclusions	16
Chapter 2: Literature Review	17- 30
2.1 Concept of Work Life Balance	17
2.2 Theories and Models of WLB	19
2.2.1 Negative Spillover - Work Life Conflict	20
2.2.2 Positive Spillover - Work life Enrichment	21

2.3	Work Life Balance in Indian Organisations	23
2.4	Work Life Balance and Doctors	24
2.4.1	WLB Programs in Hospitals	26
2.5	Concept of Job Satisfaction	27
2.5.1	Affective Job Satisfaction	27
2.5.2	Cognitive Job Satisfaction	28
2.5.3	Doctors` Job Satisfaction Factors in India	28
2.6	Work Life Balance and Job Satisfaction	29
2.7	Research Gaps identified	29
Chapter 3: Research Methodology		31-71
3.1	Statement of the Problem	31
3.2	Research Questions	35
3.3	Research Objectives	35
3.4	Theoretical Framework and Conceptual Model	37
3.5	Operational Definitions	40
3.6	Hypotheses of the Study	45
3.7	Research Methodology	53
3.7.1	Pilot Study	54
3.7.2	Research Design	56
3.7.3	Scope of the Study (period, area, participants and variables)	56
3.7.4	Sampling Design	60
3.7.5	Research Instrument	63
3.7.6	Method of Analyses	66
3.8	Ethical Considerations	68
3.9	Structure of the Thesis	68
Chapter 4: Data Analysis and Interpretation		72-130
4.1	Demographic data	73
4.1.1	Sample Coverage	73
4.1.2	Personal Demographic Factors	74

4.1.3	Correlation between WLB and Personal Demographic Characteristics	75
4.1.4	Professional Demographic Factors	76
4.1.5	Correlation between WLB and Professional Demographic Characteristics	77
4.2	Validity and Reliability of the research instrument	78
4.3	Normality test	78
4.4	Factor analysis	78
4.5	Descriptive Statistics	81
4.5.1	Doctor's Work Life Balance Status (DrWLB)	81
4.5.2	'Intrusion' Dimension of DrWLB	83
4.5.2.1	Effects of Work to Life Intrusion (WLI)	84
	▪ Consequences of Work to Personal Life Intrusion	85
	▪ Consequences of Work to Family Life Intrusion	86
	▪ Consequences of Work to Social Life Intrusion	87
4.5.2.2	Effects of Life to Work Intrusion (LWI)	87
	▪ Consequences of Life to Work Competency Intrusion	89
	▪ Consequences of Life to Work Achievement Intrusion	90
	▪ Consequences of Life to Work Motivation Intrusion	91
4.5.3	'Support' Dimension of DrWLB	91
4.5.3.1	Effects of Work to Life Support (WLS)	93
	▪ Consequences of Work to Personal Life Support	94
	▪ Consequences of Work to Family Life Support	94
	▪ Consequences of Work to Social Life Support	95
4.5.3.2	Effects of Life to Work Intrusion (LWS)	96
	▪ Consequences of Life to Work Competency Support	97
	▪ Consequences of Life to Work Achievement Support	97
	▪ Consequences of Life to Work Motivation Support	98
4.5.4	Descriptive Statistics for 'Determinants of DrWLB'	99
	▪ 'Profession Related' Factors determining DrWLB	100
	▪ 'Patient Issues' Factors determining DrWLB	102
	▪ 'Country Specific' Factors determining DrWLB	103
	▪ 'Personal Matters' Factors determining DrWLB	104

4.5.5	Descriptive Statistics for Doctor's Job Satisfaction (DrJS)	105
4.5.5.1	Cognitive Job Satisfaction (CJS)	107
	Satisfaction with Intrinsic Job Factors (Int_Fact)	107
	Satisfaction with Extrinsic Job Factors (Ext_Fact)	109
4.5.5.2	Affective Job Satisfaction	111
	Positive Affect (Pos_Aff)	111
	Negative Affect (Neg_Aff)	113
4.6	Inferential Statistics - Hypotheses testing	115
4.6.1	Correlation Analysis	
	▪ Hypothesis H1 : Correlation between DrWLB and DrJS	115
	▪ Sub Hypotheses H1a to H1d	117
4.6.2	Multiple Regression Analysis	
	▪ Sub Hypotheses H1e : DrWLB Predicts AJS	118
	▪ Sub Hypotheses H1f: CJS Predicts DrWLB	119
4.6.3	Mediation Path Model : CJS - DrWLB - AJS	120
4.6.4	Moderation Regression Analysis to Test Moderation Effect of City-Type (metropolitan and non metropolitan)	122
4.6.5	Moderation Regression Analysis to Test Moderation Effect of Hospital-Type (public and private)	123
4.7	Doctors' Preference for Work Life Balance Programs	124
4.8	Doctors' Preference of Practice Method to Achieve Better Work Life Balance	128
4.9	Doctors' Perception about Work Life Balance	128
4.10	Doctors' Intention to Leave	129
4.11	Doctors' Satisfaction with Choice of Profession	130

Chapter 5: Findings **131- 162**

5.1	Doctors' Work Life Balance	132
5.1.1	Development of Doctor's Work Life Balance Scale	132
5.1.2	Doctors' Work Life Balance Status	133
5.1.3	Doctors' Perception about WLB	134
5.1.4	Doctors' Preference of Practice Method to achieve WLB	135

5.1.5	Correlation between Work Life Balance and Doctors' Personal Demographic Profile	135
5.1.6	Correlation between Professional Demographic Profile and Work Life Balance	135
5.2	Effect of Intrusion on Doctor's Work Life Balance	136
5.2.1	Consequences of Work to Life Intrusion	137
5.2.2	Consequences of Life to Work Intrusion	138
5.3	Effect of Support on Doctor's Work Life Balance	139
5.3.1	Consequences of Work to Life Support	140
5.3.2	Consequences of Life to Work Support	140
5.4	Determinants of Doctors Work Life Balance	141
5.4.1	'Profession Related' Factor	141
5.4.2	'Patient Issues' Factor	143
5.4.3	'Country Specific' Factor	143
5.4.4	'Personal Matters' Factor	144
5.5	Doctors' Job Satisfaction	145
5.5.1	Cognitive Job Satisfaction	146
5.5.2	Affective Job satisfaction	148
5.6	Doctors' Work Life Balance and Job Satisfaction	150
5.6.1	Correlation between Doctor's Work Life Balance and Job Satisfaction	150
5.6.2	Predicting Doctors' Affective Job Satisfaction (AJS) by Means of their Work Life Balance (DrWLB)	151
5.6.3	Predicting Doctor's Work Life Balance by means of their Cognitive Job Satisfaction (CJS)	152
5.6.4	Mediating Effect of Doctors Work Life Balance (DrWLB) on relationship between Cognitive Job Satisfaction (CJS) and Affective Job Satisfaction (AJS)	153
5.7	Moderating Effect of City Type (Metropolitan and Non-Metropolitan) on relationship between Cognitive Job Satisfaction and Doctors Work Life Balance	156

5.8	Moderating Effect of Hospital Type (Public and Private) on relationship between Cognitive Job Satisfaction and Doctors Work Life Balance	158
5.9	Work Life Balance Programs Preferred by Doctors	159
5.10	Doctors' Intention to Leave the Job	161
5.11	Doctors' Satisfaction with Choice of Profession	162
Chapter 6: Suggestions		163 - 174
A)	Strategies to cope with Doctors' Work Life Balance:	163
6.1	What can Doctors do?	163
6.2	What can Patients do?	164
6.3	What can Hospitals do?	165
6.3.1	Create more Supportive Culture at Hospitals	165
6.3.2	Redesign Work Routine and Workload of Doctors	166
6.3.3	Provide a sense of Control	167
6.3.4	Implement Work Life Balance Programs in Hospitals	168
	What care hospitals need to take before implementing Work Life Balance Programs?	171
	Why should Indian hospitals adopt Work Life Balance Programs?	172
B)	Strategies to Improve Doctors Overall Satisfaction with Job and Life	174
Chapter 7: Conclusions		176- 189
7.1	Overview of the Research Study	176
7.2	Overview of Research Findings	178
7.2.1	Doctors' Work Life Balance	178
7.2.2	Factors determining Doctors' Work Life Balance in Public and Private Hospitals of Nashik and Mumbai cities	180
7.2.3	Doctors' Job Satisfaction	181
7.2.4	Relation between Doctor's Work Life Balance and Job Satisfaction	182

7.2.5	Effect of 'City Type' and 'Hospital Type' on relationship between Cognitive Job satisfaction and Doctor's Work Life Balance	183
7.2.6	Doctors' Preference for various Work Life Balance Programs	183
7.3	Contributions of the Research	184
7.4	Implications of the Study	186
7.5	Limitations of the Research and Scope for Future Research	187
