ACKNOWLEDGEMENTS

First and foremost, I thank the Almighty God, for showering me with blessings, wisdom, strength and grace throughout my research work.

I extremely grateful to acknowledge my heartfelt gratitude and thanks to all those who supported and helped me out in the course of this work.

Words will not be sufficient to thank my guide and mentor, Dr. K. Kumar Ebenezar, Assistant Professor, Faculty of Allied Health Sciences, CHRI (There are millions of peoples in this world then, why you are born? Because it is expected that something you will do which is not possible by millions), for his relentless encouragement, invaluable moral support, constructive criticism and pushing me to the limits.

I would like to express my thankfulness to Prof. Dr. R. Murugesan, Director-Research, Chettinad Academy of Research and Education for his valuable support and encouragement and implication of his colossal knowledge towards improving the quality of my research work throughout the tenure of my PhD.

I also thank Prof. RM. Pitchappan, former Director - Research, Chettinad Academy of Research and Education for his constant support and guidance through his vast knowledge and wisdom.

I also extend my heartfelt thankfulness to Dr. K Ramesh Rao, Dean, CHRI for helping in histopathological studies and permitting to use the microscopic facility.

I wish to thanks to Dr. A. Thamaraiselvan, Principal, FAHS, CHRI, for his interest, encouragement and advice during the tenure of the study.

I sincerely thank Dr. S. Govindaraju, Professor, CARE, for his suggestion and help in statistical analysis using SPSS software and for his interest, encouragement and advice during the my study period.

I thank Dr. Shiek SSJ Ahmed, Assistant Professor, FAHS, CHRI for helping in the multivariate analysis, docking studies and interpretation of project work and for his relentless encouragement, invaluable moral support, constructive criticism
and pushing me to the limits.

I wish to thank Dr. Moorthi Ambigapathi, Assistant Professor, FAHS, CHRI, Dr. Senthi Kumar and Dr. Sathish for their support in real time PCR study and analysis and for their interest, encouragement and advice during the tenure of the study.

I wish to express my extreme thankfulness to Dr. Ashok Kumar, Asst. Prof. Annamalai university, Annamalai nagar, Chidambaram for permitting me to carry out biochemical procedures in his university.

I wish to thank Dr. Victor Antony Santiago Jesudoss, Associate Professor, Faculty of Pharmacy and Allied Health Science, Asian Metropolitan University, Malaysia, for his encouragement and advice during tenure of the study.

I also extend my thankfulness to Dr. E. Malligai, HOD, Dr. Vinayagamoorthy, Dr. Murugavel and Dr. Ansari, Department of Biochemistry, CHRI for the support and inspiring suggestions throughout the period of the study.

I wish to express my special thanks to Dr. p. Jayanthi, Former HOD, Department of Biochemistry, CHRI. In particular for her intense motivation and enthusiasm that was extremely helpful to initiate my research work.

I wish to thanks to Dr. R. Saravanan, Dr. S. Gowtham Kumar and Dr. V. Ramakrishnan, Dr. Satish Ramalingam, Dr. Agneshwar Cirigoswami, Dr. Koyeli Girigoswami, FAHS, CHRI, for their encouragement and advice during tenure of the study.

I would like to thank Mrs. Kurunchi C Divya, Assistant professor, FAHS, CHRI and Mrs. Vigneshwari for their affection, motivation and enthusiasm during my research.

I thank Mr. V. Alexander, JRF, CARE for his support and carry out the Nitric Oxide estimation for my project work.

I would like to thank my fellow labmates and friends S. Vimaladevi, M. Meera, R. Karthik, P. Gnanakumar, C. Swathi Priyadarshini, Dr. A. J. Jagadeesan, M. Ranjitha, G. Madhu Mala, Sanjay Metkar, Geeva George, R.S. Akram Husain, H.R.Vinoda Kumar, and other colleagues for their support,
knowledge sharing and fun filled lab environment in my entire period of my course.

I extend my thankfulness and gratitude to the Trustee, Registrar and Vice Chancellor for the financial support extended to me as Junior Research Fellowship by CARE.

I genuinely thank all the faculty members, administrative staff of Faculty of Allied Health Sciences, CARE for their good wishes, assistance me as a family member and support during my PhD study.

I also thank Dr. A. Ruckmani, HOD, Department of pharmacology, CARE, Dr. T. Sobita Devi, Senior Veterinary Medical officer and Mr. M. Vijayavel, animal house technician, for their assistance in animal studies.

I wish to thank to Mrs. MN. Padmaja and Mr. E. Palani Rajan, Assistant research, Mrs. VP. Vijayalakshmi, Secretary-Director research, Mrs. P. Jayanthi, CARE, for their assisting and encouragement during my study period.

I also extend my thanks to the Non-teaching staff of the Department of Biochemistry, Microbiology and Pathalogy, CHRI for their encouragement.

Finally many friends and teachers who have contributed to the successful achievement in my academic career. I have not mentioned them all nor attempted to name them here for undoubtedly I would miss some one. To all of them I offer my bumble gratitude and thanks.

I would like to express my thanks from the depth of my heart to my beloved Parents, Brothers, Sisters for their involvement and for all their warmth affection and understanding and to my family members for their support, patience and encouragement.

I have no adequate words to express my heartfelt gratitude to my husband Mr. A Arokia Joseph Jayakumar and my kids J. Maria Jenitta Roseline (Anjala) and J. Maria Jessy Nicoline for their Sacrifice, affection, understanding, patience and having encouraged and assisted me to complete the project work.

Vasanthi M
