ACKNOWLEDGEMENT

I deem it my pride to acknowledge at the outset my utmost degree of gratitude to Dr. A. Navaneetha Gopalakrishnan, former Director & Professor, Centre for Environmental Studies, Anna University, Chennai and presently Professor & Head, Department of Civil Engineering, Tagore Engineering College, Chennai, my Supervisor for his erudite suggestions, unreserved help and meticulous guidance throughout the course of the study.

I thank the members of the Doctoral Committee, Dr. G. Swaminathan, Professor, National Institute of Technology, Trichy and Dr. Kurian Joseph, Professor, Centre for Environmental Studies, Anna University, for their critical review and valuable suggestions throughout the course of the study.

I am extremely thankful to Dr. S. Kanmani, Director & Professor, Centre for Environmental Studies, Dr. K. Nagamani, Head, Department of Civil Engineering and Dr. K. Ilamparuthi, Chairman, Faculty of Civil Engineering, Anna University, for their valuable support.

I thank my friends in TWAD Board, Chennai, CMWSS Board, Chennai and Consulting Organizations such as M/s Shah Technical Consultant, Chennai, M/s Larsen & Toubro Limited, Chennai, SFC Environmental Technology Pvt. Ltd. and Wilbur Smith Associates, Bangalore for providing numerous valuable cost data for mechanical and electrical equipment.

I specially thank my wife Mrs. P. Shenbagavalli, my sons, family members and friends who have whole heartedly supported me in every stage of this research.

Last but not the least I thank the Almighty for granting me the time and energy throughout the period of research.

PANNIRSELVAM R
