ACKNOWLEDGEMENTS

This project is by far the most significant accomplishment in my life and it would be impossible without people (especially my family) who supported me and believed in me.

I am thankful to Prof. S. R. Nigam, Professor in the Department of Electronics and Communication Engineering, AISECT University, Bhopal and Prof. Shyam Akashe, Professor in the Department of Electronics and Communication Engineering, ITM University, Gwalior for giving me the opportunity to work under him and lending every support at every stage of this project work. I truly appreciate and value him esteemed guidance and encouragement from the beginning to the end of this thesis.

I am indebted to his for having helped me shape the problem and providing insights towards the solution. His trust and support inspired me in the most important moments of making right decisions and I am glad to work with him.

I am greatly thankful to Prof. V. K. Verma and Er. Jeetendra Rai, who has always supported and encouraged me. Thank you for always having time for me and for all the valuable suggestions and discussions over years.
