Acknowledgements

It gives me great pleasure in expressing my gratitude to all those people who have contributed in many ways to the success of this study and made this thesis possible, to only some of whom it is possible to give particular mention here.

At the moment of accomplishment, first of all I pay my deepest gratitude to my supervisor, Dr. Shahid Ali, Associate Professor, Deptt. of Mathematics, Aligarh Muslim University, Aligarh. I have been amazingly fortunate to have a supervisor who gave me the freedom to explore on my own and at the same time the guidance to recover when steps are flattered. His insightful comments and constructive criticisms at different stages of my research have always been very helpful in improving my skills and for strengthening this manuscript. I doubt that I will ever be able to convey my appreciations fully but I owe him my eternal gratitude.

I take the opportunity to sincerely acknowledge Prof. Zafar Ahsan, Chairman, Deptt. of Mathematics, Aligarh Muslim University, Aligarh for providing all the necessary facilities in the department during the period of my research work.

It's my fortunate to gratefully acknowledge the support of Dr. Vigar Azam Khan, Associate Professor, Deptt. of Mathematics, Aligarh Muslim University, Aligarh from whom I have learnt Differential Geometry at the time when he taught me some courses of differential geometry at Post Graduate level. He is one of the best teachers that I have had in my life whose sincerity and encouragement I will never forget. His wisdom, knowledge and commitment to the highest standards inspired me and motivated me.

It's my pleasure to acknowledge Prof. Fazal Mohdi, Professor, Deptt. of Mathematics A. M. U., Aligarh and Dr. (Mrs.) Alveera Mohdi, Associate Professor,
Women's College, A. M. U., Aligarh for their parent-like support and generous care whenever I was in need during my stay at Aligarh.

My warm appreciations due to my colleagues and friends who always ask my research progress and motivated as well. They were always supporting and encouraging me with thier best wishes.

Finally, yet most importantly, I would like to express my heartfelt thanks to my beloved parents Mr. Ziyaul Haque Ansari and Mrs. Nafisa Khatoon for their faith in me and allowing me to be as ambitious as I wanted. It was under their watchful eye that I gained so much drive and an ability to tackle challenges head on. I also extend my gratitude to my brothers Mr. Mohd. Anas Ziya and Mr. Mohd. Monis Ziya. They have actively supported me in my determination to find and realize my potential. They had never complained in spite of all the hardships in their lives. I am ever grateful to their unselfish blessing and support.

To those who indirectly contributed in this research work, your kindness means a lot to me. Thank you very much.

Tanveer Fatima
