ACKNOWLEDGMENT

Proclaim! And thy lord is Most bountiful, He who taught the use of pen, Taught man that which he knew not!

(The Holy Quran: Chapter 96: Al-'Alaq, verse: 3-5)

This is probably the most difficult part of this work to write, because printed words fail to express the depth of feelings hidden behind them and convey the actual extent of influence others cast on one's work or life. Before I proceed to mention at least a few special persons without whose support, co-operation and contribution, this work would have never come to fruition, let me express my deepest faith in Almighty Allah, the Omnipotent, the Omnipresent for it is indeed His blessings which provided me enough zeal to complete this work.

First and foremost, I consider it my privilege to have completed this work under the noble guidance and supervision of Dr. Mohammad Muneer, Professor, Department of Chemistry, Aligarh Muslim University, Aligarh, who not only introduced me to the fascinating world of photochemistry but despite his busy schedule, gave me the privilege and liberty to encroach on his valuable time. Besides providing indispensable guidance during each and every phase of my research work, he has been a constant source of strength and inspiration to me throughout the execution of the study. I am heavily indebted to him for his benevolent attitude and advice on personal and professional level which strengthened my morale, punctuality, determination and impartial attitude. The discussions with him were always a lifeline for new thoughts. His valuable suggestions added to the output of the research, inspired me to have a better grip over my research field.

I am indebted to Prof. Zafar Ahmad Siddiqui, Chairman Department of Chemistry for providing necessary laboratory facilities. I take this opportunity to acknowledge the help and co-operation rendered by my senior Dr. Malik Mohibbul Haque and my laboratory colleagues Dr. Sarfaraz Ahmed, Dr. Mohammad Asad, Dr. Afzaal Hussain, Mr. Abuzar Khan, Mr. Khalid Umar, Mr. Waseem Raza, Mr. Tariq Ahmad Shah and Mr. Zubair Ahmad, who were always helpful and encouraging during the course of study.

I record my thanks to Dr. S. Vijayalakshmi, Research Scientist, SAIF, IIT Bombay for carrying out GC-MS analysis of the samples. The help rendered by Mr. Sajad Ahmad Bhat and Mr. Aijaz Ahmad Dar during my stay at IIT Bombay is greatly acknowledged.

The award of Junior and then Senior Research Fellowship by University Grants Commission, New Delhi, India, is gratefully acknowledged.

From the core of my heart, special thanks go to my friends, Dr. Altaf Hussain, Dr Shahir Ahmad Parray, Dr. Muzaffar Ahmad Bhat, Owais Mehraj, Mir yasir Arafat,
Kaiser Ahmad Mir, Ali Mohammad Malla, Ajaz Ahmad Dar, Manzoor Ahmad Khanday, Intiyaz Khanday, Akhtar Hussain Malik, Firdous Ahmad Shah, Muzaffar Ahmad Bhat, Nayeeem Ahmad, Nazir Ahmad Alai, Fayaz Ahmad Bhat, Javid Ahmad, Mir Sajad Hussain, Bilal Masood Pirzada, Altaf Ahmad Lone, Riyaz Ahmad Lone, Shamim Ahmad Dar, Intiyaz Rasool, Tahira Qadir, Farhana Maqbool and Shania Khan for their moral support and encouragement during the entire course of study.

My special thanks are also due to my cousins Dr. Mir Umar John, Bashir Ahmad Mir, M. Ashraf Mir, Shabir Ahmad Mir, Jameel Ahmad Mir, Aaquib Zahoor Bhat, Tanveer Hilal Tantary, Aarifa Nazir, Bilal Ahmad Mir, Ishfaq Ahmad Mir, Suhail Ahmad Mir, Zubaida Farooq, Nargis Farooq and Nadia Hilal for their love and support during the course of study.

I am also heavily indebted to my sister Zubaida Munawar for her constant moral support and encouragement during each and every moment of my research and gifting me with a laptop to accomplish the task of research well in time in spite of her pressing budgets.

Last but not least, I express my deepest gratitude to my mother Zaina Begum and uncles especially Gh. Mohi-u-din Dar for their everlasting support, affection and forbearance without which it would have been impossible for me to accomplish the task of completing this work. I hope the successful completion of this work will bring a glitter of pride in their eyes.

(Niyaz Ahmad Mir)
