ACKNOWLEDGEMENTS

All my heartiest praises are due to the almighty ALLAH, the most merciful, benevolent, omnipotent and the lord of the universe. It is HIS blessings which inspired and guided all the channels to work in coherence and make this study a success.

Foremost, I express my deepest gratitude to my advisor, Prof. P. Q. Rizvi. I have been amazingly fortunate to have an advisor who gave me the freedom to explore myself and at the same time the guidance to recover, when my steps faltered. He taught me how to question thoughts and express ideas. His patience and support helped me overcome many crisis situations and finish this work.

I have a great passion to record my sincere thanks to Prof. Akhtar Haseeb, Chairman, Department of Plant Protection, AMU, Aligarh for providing all the necessary facilities during my research work. Thanks are due to Dr. Raees Ulah Khan, Dr. (Mrs.) Masarrat Haseeb, Dr. Shafeeq Ansari and Dr. Shabbir Ashraf, Associate Professors, Department of Plant Protection, AMU, Aligarh, from whom, I received encouragement and good wishes throughout my research period.

I have no words to express my gratitude to Prof. M. Hayat (Principal Investigator, ICAR-Network Project on Insect Bio-systematics, D/o, Zoology, A. M. U, Aligarh) for his cooperation and fatherly behavior during compilation.

"Any time" though it is only a statement but boosted me morally during the journey of my thesis. This bundle of energy was beyond doubt offered by Salman, Fishan, Fahad, Nadeem Bhai and Ravi. However, I will pay my respect and special thanks to Dr. Arshad Ali who took this pain for me and provided his precious time, especially at the time of compilation of the thesis. I will also offer my special thank to my junior Shabistana for her cooperation and help during this critical stage.

I would like to mention the name of Dr. Rummana A. Chaudhury, Dr. Nazrussalam, Dr. Haidar Ali and Dr. Nadeem, Dr. Nakhat Ara Naqvi (Foreign Executive, Parijat Industries Pvt. Ltd., New Delhi), Dr. Farmanur Rahman Khan and Dr. Saiyed Mohd. Ali Badaruddin for their active support and brotherly help during the persuasion of my research.

I am grateful to acknowledge my lab colleagues Zuhaib, Salman, Huma Naz, Asma Naz and Vishwadeepak Sharma, Ees Ahmad and Dada; my juniors Hina, Chandni, Sumbul, Sumit, Muslim, Nilesh, Zia and Talha for their good and cordial company,
healthy discussion, timely cooperation, encouragement and helping attitude throughout my research period.

I am also thankful to the system staff who maintained all the machines in my lab so efficiently that I never had to worry about anything. I do not envy their job. I feel that they are the greatest system administrators in the world. Kudos to Raguib Bhai, Iftitah Bhai, Akbar Bhai, Adil Bhai, Amir Bhai and the rest of the team! Thanks to Darakshan aapa and Bushra Apa for providing me all the books that I needed during the course of this study.

It gives me immense pleasure and honor to express my deep sense of gratitude to my parents (Mr. Syed Ibrahim Ali and Mrs. Farhat Rahmani) who nurtured me as a small plant and shaped me as a strong tree, and always remained with me as a strong pillar during the long duration of my study. Their countless blessings have no horizon for me. Moreover, I would also like to mention Syed Imran Ahmad (Bhaijan), Kaynat Bhabi, Soni, Salman and my dearest Farha for their love, unfailing blessings, warmth support during the difficult time and they were always trying to give me a fair account in the every phases of life. I fall short of words to express my gratitude for them.

I rejoice my special thanks to my wife, Dr. Fahmeena for being with me and her patient love, care, good wishes, constant emotional support and inexhaustible confidence enabled me to complete this work. My in-laws, Zeeshan and Alam also supported me immensely.

Due thanks are expressed to University Grant Commission for providing funds in the form of scholarship (UGC-Non-NET Ph.D fellowship and Maulana Azad Minority fellowship).

(Syed Kamran Ahmad)
