

List of Tables

Table No.	Title	Page No.
4.1	Survey Sampling Strategy	40
5.1	Percentage of Farmer Households Accessing Modern Agricultural Technology through Different Sources of Information at State Level	64
5.2	Access to Information From Most Accessed Sources of Information across Farm Sizes in India (Percent)	70
5.3	Efficiency of Sources In Trial And Adoption of Information	72
5.4	Adoption of Different Sources of Information on Agricultural Practices	76
6.1	Key Information Used by Farmers within Agricultural Knowledge System	82
6.2	List of Available ICT-Based Initiatives in India	87
6.3	Types of Projects	88
6.4	Types of services provided by ICT models	93
7.1	Socio-Demographic Profile of Sample Respondents	107
7.2	Farmer's Profile of Sources of Information, Frequency of Use and Impact on Agriculture/Agribusiness	111
7.3	Farmer's Response on Quality of Information in Agricultural /Agribusiness Practices by Sources	114
7.4	Sources of Information on Agriculture Decision Making Process (%)	116
7.5	Farmers' Perceptions of the Quality of Information on planning decisions by Activity	119
7.6	Farmers' Perceptions of the Quality of Information on Input decisions by Activity	119
7.7	Farmers' Perceptions of the Quality of Information on Cultivation Decisions by Activity	126
7.8	Farmers' Perceptions of the Quality of Information on Post-Harvest Decisions by Activity	128
7.9	Farmers' Perceptions of the Quality of Information on Marketing & Distribution Decisions by Activity	128
8.1	Mean Scores of Relationship between Quality of Decision and Usage and Non Usage of Models	135
8.2	Chi-Square Test of Relationship between Quality of Decisions and Usage of Models and Overall Users and Non-Users of Models	138-39
8.3	Chi Square Test of Relationship between Quality of Decisions Making Between Usage & Non Usage of Models	144-45

9.1	Variables Descriptions and Summary Statistics	151
9.2	Variables Estimates of Negative Binomial Model for Agriculture Decision Making and for Different Stages	153
9.3	Predicted Percentage Change in Adoption of ICTs for Agricultural Decision Making	154
9.4	Summary of the Testing of Hypothesis	157
