ACKNOWLEDGEMENT
Acknowledgements

I am very grateful to my supervisor, Prof. Neera Bhalla Sarin for her valuable guidance and for giving me the opportunity to enhance my knowledge by working in multiple on-going projects in the lab. I am extremely thankful to her for providing ample freedom and encouragement to realize my scientific ideas.

I would like to thank the present Dean, Prof. R.N.K. Bamezai and former Deans, Prof. Alok Bhattacharya and Prof. K.C. Upadhyaya for providing all the facilities in SLS. I also take this opportunity to thank Prof. R. K. Kale, Dr. Gourango Mukhopadhyay, Dr. Ashwini Pareek and Dr. Rohini Muthusamy for their help and advice. The help provided by Mr. Alexander, Dr. S. P. Sharma, Mr. S. Mishra, Mr. B. Khan and other CIF staff is kindly acknowledged. Mrs. Meenu deserves special thanks for efficiently managing everything related to student welfare, specially fellowship matters. I also thank Mr. Saini for taking photographs and Mr. Ginti and the nursery staff for growing *Brassica juncea* in the nursery, JNU. It was an enriching experience to talk and discuss with Prof. S.C. Maheswari and Dr. Nirmala Maheshwari on varied topics. I am extremely grateful for their help in writing my thesis.

A gift of LEAFY cDNA from Dr. Detlef Weigel is kindly acknowledged. I am also grateful to Dr. Shyamprakash, IARI for the valuable discussions, suggestions and also the gift of different varieties of *B. juncea*.

I was very fortunate to learn the nuances of molecular biology in Prof. Thomas Hohn's lab in Basel, Switzerland under the able guidance of Misha. I gained a lot from the discussions with Prof. Barbara Hohn, Katja, Lyvia and Cynthia. Mrs. Blume, my landlady in Basel, who despite the age and cultural differences is a good friend.

Special thanks to Dr. Versha for introducing me to the intriguing world of plant development. Dr. Versai and Dr. Thiruvengadam have been very kind to send some valuable reprints on flowering from Taiwan.

This is a good opportunity to thank the people in JNU who have helped me in great need - Punit, Gopal, Naseem, Zubeida, Sanjay, Tuhina, Sanghamitra, Nandini, Dheeraj, Katy, Ishani, Geetanjali, Sushma, Gautam, Sumita and Ram.

The present postdocs in the lab - Dr. A. Muthusamy, Dr. Meetu Gupta and Dr. Neeti Dhaka have been very co-operative and encouraging. I would also like to thank
Prem, Aslam, Shalu, Anjana, Chandrama and Nishakanth for the learning experience I had while in the lab. Pawan, Ravi, Deepak and Abhishek provided an affable atmosphere to the lab. Thanks to Divya, Sanjay and Prerna for their help during my thesis submission. I really relished the company of M. Sc. project students in the lab, especially Pyniar.

Thanks to Late Bhagatramji, Naresh, Subhash and Saligram for all the help in the lab and in the greenhouse.

I always had the privilege to come across loving and encouraging teachers. I thank all of them-specially Mr. B. Paul, Mrs. N. Pal, Mr. Inayetullah, Dr. A. K. Sanyal, Prof. A.K. Sodhi and Dr. A.K. Tripathi. I hope someday I will be able to achieve the same belief that they have, in my potential.

It is a privilege to have a helping and encouraging friend like Rajesh in today’s world. Shubharthi, Bikash, Ritudi, Sriparna and Susan for sharing many of my experiences. Thanks to Mukesh, for all his help, suggestions and guidance for carrying out my work.

Last but not the least, this thesis is due to the love, encouragement and sacrifices by my family. GOD has been kind to give me - Mani, Mesho and Ma, Baba who gave me everything that I yearned for. Finally, Chhordi, Deepdada, Mumu and Mitun, you are my pillar of strength, thanks for being a patient listener to all that I had to say.

The financial support provided by UGC in the form of JRF, SRF is kindly acknowledged.

Above all, I thank Almighty GOD for all the blessings He has showered on me.

Suchandra Deb Roy
