ACKNOWLEDGEMENT

I acknowledge my supervisor Prof. (Dr.) Debabrata Chakraborty, Faculty of Department of Polymer Science and Technology, University of Calcutta, Kolkata, India who guided me frequently during my research period. He was ever willing to give all kind of support and encouragement.

A special acknowledgement goes to my joint supervisor Dr. Subrata Mukherjee, Head of Facilitation Center for Industrial Plasma Technologies (Institute of Plasma Research), Gandhinagar, Gujarat for allowing me to undertake experiment at Facilitation Center for Industrial Plasma Technologies. His vast experience and creativity helped me greatly along the way, and were essential to the completion of this thesis.

I express heartily thanks to my associate supervisor Prof. (Dr.) Shantanu Bhowmik, Faculty of Aerospace Engineering, Amrita institute of Technology, Coimbatore, Tamil Nadu, India for providing me the opportunity and for his invaluable suggestion and unwavering support. Everything I know about research has come from him.

I am extremely grateful to Dr. Mridul Bose, Faculty of Department of Physics, Jadavpur University, Kolkata, India for their helpful guidance about plasma experiment. His ready to help approached unforgettable for me.

I would like to thank Prof. Sadhan Kumar Modak (Retired Professor of City college, Kolkata) for useful discussions and suggestions.

I would like to thank Mr. Ramkrishna Mondal from (Aglo pvt. LtdKolkata, India) for performing moisture absorption study and also thank to Mr. Surojeet
Mukherjee from (SNBNCBS, Kolkata, India) for performing TGA and AFM equipments.

I would like to thank Mr. Samrat and Ms Urmila Goswami from Centre for Research in Nanoscience and Nanotechnology, University of Calcutta (Kolkata, India) for their help and support to perform the experimental work like SEM and TEM. I would also like to thank to Mr. Sujoy from Department of Polymer Science and Technology, University of Calcutta (Kolkata, India) for his help to perform Tensile strength equipment.

I would like to extend my thanks to all faculty members and staff members of Department of Polymer Science and Technology (University of Calcutta) for their ready to support approached unforgettable to me.

I owe my special thanks to my parents for their support and encouragement throughout my career. Their prayers have been a source of motivation and strength for me.

And last, but not least, heartiest thank goes to Prabir da (Dr. Prabir Banerjee) Sanjib Da (Dr. Sanjib Sarkar), Arup da (Arup Mondal) and my friend Ayan (Ayan Dey) and Rabin (Rabin Bera). They are always helped me and give valuable suggestion. Thank you all of you guys for having good time with me.
