Acknowledgements

The present work is the outcome of the research carried out under the supervision of Dr. Aindrila Chattopadhyay, Assistant Professor (Stage III), Department of Physiology, Vidyasagar College, 39, Sankar Ghosh Lane, Kolkata 700 006 and Dr. Debasish Bandyopadhyay, Professor, Department of Physiology, University of Calcutta, University College of Science and Technology, 92 APC Road, Kolkata 700 009, who introduced me to the world of traditional scholarship in letter and spirit. Without their scholarly guidance and leading counsel it would not have been possible for me to give the present shape to this work.

I would like to acknowledge the receipt of a project fellowship from Department of Science and Technology, Govt. of India under Woman Scientists Scheme-A (WOS-A), without which carrying out this work would have been very difficult.

I also like to remain grateful to our Ex-Principal Dr. Tapan Kumar Mishra, our ex-Teacher-In-Charge Dr. Sudipa Bandyopadhyay and our present Principal Dr. Goutam Kundu, Vidyasagar College, for their extremely valuable help and cooperation.

I am thankful to Dr. Biswajyoti Guha, MD. MRCOG DFFP, Consultant Obstetrician and Gynecologist, Vision Care Hospital, Mukundapur, Kolkata, for his selfless contribution in some parts of my research work.

I am grateful to Dr. Utpal Roy Chowdhury, Scientist, National Test House, Kolkata, for his valuable help and co-operation.

I would also like to acknowledge Dr. S K Pattari, MD of RN Tagore International Institute of Cardiac Sciences, Kolkata, India, for his valuable help and co-operation.
Acknowledgements

- I am also grateful to past and present Heads, Department of Physiology, University of Calcutta, for their extremely valuable help and co-operation during my studies.

- I am thankful to Mr. Amresh Panigrahy of DBT-IPLS section, University of Calcutta, Ballygunge campus, for the technical assistance provided by him and also remain thankful to Dr. Maitrayee Dasgupta, Professor, Department of Biochemistry as well as the co-ordinator of DBT-IPLS section for allowing me to use some of the facilities of this section.

- I acknowledge the technical assistance provided by Dr. Debajit Bhowmick and Mr. Tridib Das of Centre for Research in Nanoscience and Nanotechnology Campus, University of Calcutta.

- For this study I am indebted to many of my co-research scholars, friends, well-wishers and a large number of persons and institutions who encouraged and helped me to complete this work. Without their ungrudging assistance it would have been impossible to complete this work successfully.

- Finally, I must thank my Late Grandfather and my grandmother, my parents and also some of my family friends for their ever present sincere support and encouragement throughout my studies.
