**CHAPTER 1**

**INTRODUCTION AND RELEVANCE OF THE STUDY** 1

1.1 *Introduction* 1

1.2 *Objective of the Study* 7

1.3 *Sources of Data* 10

1.4 *Organisation of the thesis* 10

**CHAPTER 2**

**SURVEY OF LITERATURE** 12

2.1 *Introduction* 12

2.2 *Issues of levels, trends and determinants of under-five mortality and its components* 13

2.3 *Issues on utilization of maternal and child health services* 17

2.4 *Issues relating to inequality on infant and under-five mortality* 20

2.5 *Issues on projection of infant and under-five mortality against Millennium Development Goals* 21

2.6 *Issues relating to efficiency of health care systems* 23

2.7 *Connection of the present thesis with the existing literature* 25
CHAPTER 3
MEASUREMENT AND DETERMINANTS OF INFANT AND CHILD MORTALITY ACROSS STATES AND REGIONS OF INDIA

3.1 Introduction 28
3.2 Data and Methodology 33
3.2.1 Estimation of components of under-five mortality and of their trends using SRS data 35
3.2.2 Estimation of levels in under-five mortality components using three rounds of NFHS data 39
3.2.3 Measuring the determinants of components of under-five mortality (neonatal, infant and child) 41
3.3 Analysis 46
3.3.1 Trends in components of under-five mortality using SRS data 46
3.3.2 Estimation of levels and trends in under-five mortality Components and inter regional comparison using NFHS data 55
3.3.3 Multivariate relationship between different characteristics Variables and determinants of under-five mortality components (neonatal, infant and child) 61
3.4 Summary and Conclusion 67
Appendix – I 89

CHAPTER 4
IMPACT OF NATIONAL HEALTH PROGRAMME ON INFANT AND CHILD MORTALITY IN INDIA FOR THE PERIOD 1976-2004

4.1 Introduction 93
4.2 Short Review of Health Care Programmes in India 96
4.3 Data and Methodology 98
4.4 Analysis 101
4.4.1 Trends in Utilization of maternal and child health care indicators 101
CHAPTER 7

EFFICIENCY OF HEALTH CARE SYSTEM IN INDIA: AN INTER-STATE ANALYSIS USING DEA APPROACH

7.1 Introduction 176
7.2 Methodology of the Study 180
7.3 Data and Analysis 184
7.3.1 Correlation & Principal Component Analysis for the selection of inputs and outputs 187
7.3.2 DEA Efficiency Results 188
7.3.3 Determinants of efficiency scores and the DEA/Tobit two-steps procedure 191
7.4 Summary and Conclusion 194
