LIST OF TABLES

Table 3.1(a) 71
Average annual rates of change in early neonatal and neonatal mortality according to five-year periods by States of India

Table 3.1(b) 72
Average annual rates of change in infant and under-five mortality according to five-year periods by States of India

Table 3.1(c) 73
Absolute change in early neonatal and neonatal mortality rate according to five-year periods by states of India

Table 3.1(d) 74
Absolute change in infant and under-five mortality rate according to five-year periods by states of India

Table 3.1(e) 75
Average annual rates of change and absolute change in early neonatal, neonatal, infant and under-five mortality according to five-year periods, India, 1978-2008

Table 3.2(a) 76
Early neonatal mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India

Table 3.2(b) 77
Neonatal mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India

Table 3.2(c) 78
Post-neonatal mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India

Table 3.2(d) 79
Infant mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India

Table 3.2(e) 80
Child mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India
Table 3.2(f)  
Under-five mortality rates by residence for different five years period based on NFHS (1,2 & 3) for major states of India

Table 3.2(g)  
Early neonatal, neonatal and infant mortality rates by residence for different five years periods based on NFHS and SRS for major states of India

Table 3.3 (a)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and (NFHS-1,2,3), India

Table 3.3 (b)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), Northern India

Table 3.3 (c)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), Central India

Table 3.3 (d)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), Eastern India

Table 3.3 (e)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), Western India

Table 3.3 (f)  
Hazard ratios for neonatal, post neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), Southern India

Table A1.1  
Still birth rate and different components of Infant mortality rate by residence, India (1970 - 2008)

Table A1.2  
Selected indicators of under-five mortality by residence, India, 1970-2008

Table A1.3  
Percentage of early neonatal deaths among neonates, percentage of neonatal deaths among infants and percentage of infant deaths among under-five deaths, India (1970 - 2008)
Table A1.4
Hazard ratios (unadjusted) for neonatal, post-neonatal and child mortality, according to important characteristics and place of residence (NFHS-1,2,3), India

Table 4.1
Trends in maternal care indicators for births during the three years preceding the survey, NFHS (1, 2 & 3), India and major states

Table 4.2 (a)
Unadjusted and adjusted hazard ratios for neonatal and post-neonatal mortality, according to important health care characteristics, regions and place of residence (total) (NFHS-1, 2 & 3), India

Table 4.2 (b)
Unadjusted and adjusted hazard ratios for neonatal and post-neonatal mortality, according to important health care characteristics, regions and place of residence (rural), NFHS-1, 2 & 3, India

Table 4.2 (c)
Unadjusted and adjusted hazard ratios for neonatal and post-neonatal mortality, according to important health care characteristics, regions and place of residence (urban), NFHS-1, 2 & 3, India

Table 4.3 (a)
Hazard Ratios for neonatal mortality according to important health care characteristics, NFHS-1, 2 & 3, regions of India

Table 4.3 (b)
Hazard Ratios for post-neonatal mortality according to important health care characteristics, NFHS-1, 2 & 3, regions of India

Table 5.1
Percentage distribution of different demographic, maternal and child health care variables according to important background characteristics for the children born in last five years preceding the NFHS-3 survey (2005-06), India.

Table 5.2
Odds ratios of different demographic, maternal and child health care variables according to important background Characteristics for the children born in last five years preceding the NFHS-3 survey (2005-06).
Table 5.3
Percentage distribution of children (aged below 10 years), Infant and under-five mortality rates, by quintile of Wealth Index in Major States of India (NFHS-III, 2005-06)

Table 5.4
Concentration Indices and ranks, standard errors and t-values for infant and under-five mortality for different states of India (NFHS-III, 2004-05)

Table 6.1
Predicted values of infant mortality rates and associated 95% confidence intervals using ARIMA model by states and India, 2009-2020.

Table 6.2
Predicted values of under-five mortality rates and associated 95% confidence intervals using ARIMA model by states and India, 2009-2020.

Table A6.1
Targeted and Projected values of infant and under-five mortality rates by states and India

Table 7.1
Summary Statistics on Input and Output variables for Different Planning Periods (6th To 10th Five Year Plans)

Table 7.2
Correlation Matrix of health input indicator variables

Table 7.3
Eigen values and Cumulative R-squared of PCA on input and output health indicators

Table 7.4
DEA health efficiency scores in different planning periods by major states of India

Table 7.5
Correlation Matrix of Variables used in second stage regressions for non-discretionary data

Table 7.6
Censored Normal Tobit estimations for explaining efficiency of major Indian states
LIST OF FIGURES

Figure 1.1 4
Trends in the probability of dying before the age 5 by regions, 1960-2005

Figure 1.2 4
Trends in the probability of dying before the age 5 (U5MR) by India & Neighbouring Countries, 1960-2006

Figure 1.3 9
Conceptual framework for determinants of Under-five mortality and health care interventions

Figure 3.1 (a) 47
Fitted trends in early neonatal, natal, infant and under-five mortality rates, India, 1978-2008

Figure 3.1(b) 47
Fitted trends in early neonatal, neonatal, infant and under-five mortality rates by residence, India, 1978-2008

Figure 3.2(a) 49
Infant and under-five mortality rates by five-year periods, 1978-2008

Figure 3.2(b) 50
Average annual rate of change in infant and under-five mortality rate by five-year periods (all major states), 1978-2008

Figure 3.2(c) 51
Absolute change in infant and under-five mortality rate by five-year periods (all major states, India), 1978-2008

Figure 3.3 58
Estimated early neonatal, neonatal, post neonatal, infant, child and under-five mortality rates for different five years period based on NFHS (1,2,3) data

Figure 4.1 103
Percentage of mothers received antenatal care for at least three times during pregnancy, three years preceding the survey (NFHS-1,2,3), India and major states

Figure 4.2 103
Percentage of mothers received tetanus toxoid vaccine at least two doses during pregnancy, three years preceding the survey (NFHS-1,2,3), India and major states
Figure 4.3
Percentage of mothers received iron-folic Acid tablets during pregnancy, three years preceding the survey (NFHS-1,2,3), India and major states

Figure 4.4
Percentage of mothers delivered child in a medical institution, three years preceding the survey (NFHS-1,2,3), India and major states

Figure 4.5
Percentage of mothers received delivery assistance from a health professional, three years preceding the survey (NFHS-1,2,3), India and major states

Figure 4.6
Percentage of mothers who delivered small baby at the time of birth, three years preceding the survey (NFHS-1,2,3), India and major states

Figure 5.1
Mortality Concentration Curve

Figure 5.2
Concentration curve deviations for under-five mortality in India and its major states (NFHS-III, 2005-06)

Figure 5.3
Hasse diagram (major states, India, NFHS-3) for under-five mortality based on t-test of concentration index

Figure 6.1 (a)
Forecast of IMR of India for 2009 – 2020

Figure 6.1 (b)
Forecast of U5MR of India for 2009 – 2020

Figure 6.2(a)
Forecast of IMR of Andhra Pradesh for 2009 – 2020

Figure 6.2(b)
Forecast of U5MR of Andhra Pradesh for 2009 – 2020

Figure 6.3(a)
Forecast of IMR of Assam for 2009 – 2020

Figure 6.3(b)
Forecast of U5MR of Assam for 2009 – 2020
Figure 6.4(a)  
Forecast of IMR of Bihar for 2009 – 2020

Figure 6.4(b)  
Forecast of U5MR of Bihar for 2009 – 2020

Figure 6.5(a)  
Forecast of IMR of Gujarat for 2009 – 2020

Figure 6.5(b)  
Forecast of U5MR of Gujarat for 2009 – 2020

Figure 6.6(a)  
Forecast of IMR of Haryana for 2009 – 2020

Figure 6.6(b)  
Forecast of U5MR of Haryana for 2009 – 2020

Figure 6.7(a)  
Forecast of IMR of Himachal Pradesh for 2009 – 2020

Figure 6.7(b)  
Forecast of U5MR of Himachal Pradesh for 2009 – 2020

Figure 6.8(a)  
Forecast of IMR of Karnataka for 2009 – 2020

Figure 6.8(b)  
Forecast of U5MR of Karnataka for 2009 – 2020

Figure 6.9(a)  
Forecast of IMR of Kerala for 2009 – 2020

Figure 6.9(b)  
Forecast of U5MR of Kerala for 2009 – 2020

Figure 6.10(a)  
Forecast of IMR of Madhya Pradesh for 2009 - 2020

Figure 6.10(b)  
Forecast of U5MR of Madhya Pradesh for 2009 – 2020

Figure 6.11(a)  
Forecast of IMR of Maharashtra for 2009 - 2020
Figure 6.11(b)  
Forecast of U5MR of Maharashtra for 2009 – 2020  

Figure 6.12(a)  
Forecast of IMR of Orissa for 2009 – 2020  

Figure 6.12(b)  
Forecast of U5MR of Orissa for 2009 – 2020  

Figure 6.13(a)  
Forecast of IMR of Punjab for 2009 – 2020  

Figure 6.13(b)  
Forecast of U5MR of Punjab for 2009 – 2020  

Figure 6.14(a)  
Forecast of IMR of Rajasthan for 2009 – 2020  

Figure 6.14(b)  
Forecast of U5MR of Rajasthan for 2009 - 2020  

Figure 6.15(a)  
Forecast of IMR of Tamil Nadu for 2009 – 2020  

Figure 6.15(b)  
Forecast of U5MR of Tamil Nadu for 2009 – 2020  

Figure 6.16(a)  
Forecast of IMR of Uttar Pradesh for 2009 - 2020  

Figure 6.16(b)  
Forecast of U5MR of Uttar Pradesh for 2009 – 2020  

Figure 6.17(a)  
Forecast of IMR of West Bengal for 2009 – 2020  

Figure 6.17(b)  
Forecast of U5MR of West Bengal for 2009 - 2020  

Figure 7.1  
The Production Frontier and Returns to scale  

Figure 7.2  
DEA health efficiency scores of Major states in India (15) during different Five Year Plans (6th–10th)
