ACKNOWLEDGEMENT

I am profoundly indebted to Dr. S.K. Sharma, Ex-Reader & Head of Department of Mathematics, N.A.S. College, Meerut for his valuable guidance, painstaking supervision and constant affectionate encouragement during the period of investigation. Without his meticulous scrutiny, it would just have been impossible for me to bring this thesis in the present form.

The author is also highly thankful to Dr. L.M. Sharma, Principal, N.A.S. College, Meerut for providing me help in various ways from time to time to carry my research work.

I wish to express my sincere gratitude to Dr. Meenakshi Gaur, Reader & Head, Dept. of Mathematics, N.A.S. College, Meerut for providing me various facilities and help during the preparation of this thesis.

It is highly desirable to express my sincere thanks to Dr. Deepankar Sharma, Assco. Professor & Head, Dept. of Mathematics, D. J. College of Engineering & Technology, Modinagar for his valuable guidance and criticism from time to time throughout the preparation of this thesis.

Lastly, I express my gratitude to my parents and all my family members who have to subsist on less than their rightful share of my attention during the period of my research work.

(Ruchi Rani Garg)
This thesis is based on the following six research papers:

5. **RELIABILITY ESTIMATION OF POWER SYSTEM BY EMPLOYING BOOLEAN FUNCTION ALGEBRIC METHOD**, Communicated for publication in “Journal of Combinatorics, Information and System Sciences”, USA.
