ACKNOWLEDGEMENTS

I would like to express my deep and sincere gratitude to DR. D. Muralidhara Rao, Assistant Professor, Department of Biotechnology, Sri Krishnadevaraya University, Anantapuram, Andhra Pradesh, India to whom thanks giving by words appears just too small and insignificant when compared to the affection, help, encouragement, inspiration and guidance poured by him. I am very thankful to him for sparing his valuable time for lengthy discussions and constructive comments during the progress of this work and also during the preparation of the report.

My heart goes out in deep gratitude to my research co-supervisor Prof. K. N. Jayaveera, Professor of Chemistry, JNTUA College Of Engineering Anantapuram, Andhra Pradesh, India, for supervising my research work. I exuberantly thank him for his patience and unstinted support throughout my Ph.D work.
