ACKNOWLEDGEMENT

I would like to warmly acknowledge and express my deep sense of gratitude and indebtedness to my guide Dr. T. A. Chishti, University of Kashmir, for his keen guidance, constant encouragement and prudent suggestions during the course of my study and preparation of the final manuscript of this thesis work.

I would like to thank Professor N. A. Rather, Head, Department of Mathematics for his continuous support and making available the use of various resources and facilities in the department.

I would further like to express my deep and immense gratitude to my teacher Professor M. A. Sofi for his wisdom and advice that has been an interminable source of enlightenment and encouragement for me.

I also take this opportunity to acknowledge the help and support of all the teaching and non-teaching members of the department.

It gives me great pleasure to convey my sincere thanks to all the research scholars in my department. I would also like to thank all my friends, associates and well-wishers for their motivation and support. I also wish to express my utmost and overwhelming gratitude to my family for their incessant support and encouragement, to whom my sense of indebtedness is enormous and beyond words.

I am highly thankful to one of the Ph.D. examiners who evaluated the thesis and suggested revision. His valuable suggestions and comments improved the presentation of this thesis.
