CONTENTS

CHAPTER-1: Introduction: Review of electroactive biomolecules and electrochemical sensors

1.1 Introduction (1 - 59)

1.2 Dopamine

1.2.1 History and development

1.2.2 Structure and properties

1.2.3 Occurrence

1.2.3.1 Microorganisms

1.2.3.2 Animals

1.2.3.3 Plants

1.2.4 Biosynthesis

1.2.5 Metabolism

1.2.6 Biological significance

1.2.6.1 Neurotransmission

1.2.6.2 Deficiency of dopamine

1.2.6.3 Outside the nervous system

1.2.7 Dopamine deficiency-related diseases and disorders

1.2.7.1 Parkinson's disease

1.2.7.2 Drug addiction

1.2.7.3 Psychosis

1.2.7.4 Attention deficit hyperactivity disorder

1.2.8 Medical uses

1.3 Uric acid

1.3.1 History

1.3.2 Structure and properties

1.3.3 Dietary sources

1.3.4 Biosynthesis and metabolism

1.3.5 Biological significance

1.3.6 Causes of abnormal uric acid levels in the body

1.3.6.1 High uric acid levels

1.3.6.2 Low uric acid levels
