ACKNOWLEDGEMENTS

I express my deepest gratitude to my supervisor Dr. Julu Sen for the keen interest she showed in my work and the number of hours she spent guiding me through to the end. Without her precious guidance, valuable suggestions, constructive criticism, and boundless patience all through the phases of this study, this thesis would not be what it is.

I wish to express my thanks to University of Aden, the Indian Council for Cultural Relations (ICCR) for offering me the scholarship, and all the teachers who taught me in the courses I studied in EFL – University.

I also wish to express my appreciation to all the teachers, especially Salah Karama, and students who participated in this study as subjects, and have been honest in their responses to the questionnaires, interviews, classroom observation, and think-aloud protocol.

Last, and certainly not least, I would like to express my sincere love and appreciation to my wife for her love, prayers, patience, constant help, support, endurance, advice, encouragement, and care of my two children, Reem and Ahmed, throughout my Ph.D. programme in India (Hyderabad). Their presence with me in India has been a constant source of encouragement for completing this study.
