ACKNOWLEDGEMENT

First and foremost I would like to thank my research supervisor Dr. L.V.K.S. Bhaskar, Assistant Professor, Department of Biomedical Science, SRU, who has supported me throughout my thesis with his patience and knowledge whilst allowing me the room to work in my own way. Without him this thesis, would not have been completed.

I gratefully acknowledge my research co-guide Dr. V. Ramesh, Dean, Mahatma Gandhi postgraduate institute of dental Sciences, Pondicherry, for his advice, supervision, and crucial contribution, which made him a backbone of this thesis.

Many thanks go in particular to my research advisor Dr. H. Panisankar, Professor, SRM University. I am much indebted to him for his valuable input in scientific discussions.

I am obliged to Dr. Solomon F.D. Paul, Professor and Head of Human genetics department for the support throughout the course of my work.

I gratefully thank Dr. Baby John, Medical Director, Arignar Anna Cancer Hospital, Kanchipuram, for being instrumental in patient blood sample collection.

I acknowledge Mrs. Azhivazhagi, Nurse, Arignar Anna Cancer Hospital, Kanchipuram for helping me during field work.
I would also acknowledge Dr. D. Kandaswamy, Professor and Head, Department of Conservative Dentistry and Endodontics, Sri Ramachandra University, Chennai for his advice and his willingness to share his bright thoughts with me, which were very fruitful for shaping up my ideas in research.

During this work I have collaborated with many colleagues for whom I have great regard, and I wish to extend my warmest thanks to all those who have helped me with my work in the Department of Conservative Dentistry and Endodontics of SRU.

I am very much grateful to the Chancellor and management of SRU, for providing me all the facilities and a convenient atmosphere to carry out my work. It is a pleasure to express my gratitude whole heartedly to Pro-Chancellor Research Dr. S.P. Thygarajan for being a source of inspiration to me.

My parents deserve special mention for their inseparable support and prayers. My Father, Dr. M. Ramakrishna Singh, in the first place is the person who put the seeds of my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother, Mrs. Prema Ramakrishnan, is the one who sincerely raised me with her caring and gently love.

Words fail me to express my appreciation to my husband Dr. K. Balaji Singh, Professor, Department of General Surgery, SRU, Chennai, whose dedication, love and persistent confidence in me, has taken the load off my shoulder. I also wish to thank my son B. Aditya, for being supportive during the course of my research.
The financial support of Sri Ramachandra University is gratefully acknowledged.

Finally, I would like to thank everybody who was important to the successful realization of this, as well as expressing my apology that I could not mention personally one by one.

*Lakshmi Balaji*
