LIST OF FIGURES

1.1.1. Age-standardized Incidence rate of oral cancer among men in the countries of the world
1.1.2. Age-standardized Incidence rate of oral cancer among women in the countries of the world
1.1.3: Age-standardized Mortality rate in oral cavity cancer among men in the countries of the world
1.1.4: Age-standardized Mortality rate in oral cavity cancer among women in the countries of the world
1.2.1: Effect of CYP1A1 and AhR mediated carcinogenesis
1.2.2: Schematic representation of human CYP1A1 gene with studied polymorphisms
1.2.3: Effect of CYP2E1 and alcohol-mediated carcinogenesis
1.2.4: Schematic representation of human CYP2E1 gene with studied polymorphisms
1.2.5: Schematic representation of human EPHX1 gene with studied polymorphisms
1.2.6: Schematic representation of human NAT2 gene with studied polymorphisms
1.2.7: Checking the Quality of genomic DNA
1.2.8: Determination of intactness of isolated genomic DNA on 0.8% agarose gel electrophoresis
1.2.9: Allelic discrimination graphs for NAT2 gene polymorphism (rs1799930)
3.1.1: The CYP1A1 rs4646421 SNP genotype distribution in oral cancer patients and controls

3.1.2: The CYP1A1 rs1799814 SNP genotype distribution in oral cancer patients and controls

3.1.3: The CYP1A1 rs1048943 SNP genotype distribution in oral cancer patients and controls

3.1.4: An LD map showing the pair-wise LD between the variants (SNPs) in the CYP1A1 gene

3.2.1: The CYP2E1 rs6413419 SNP genotype distribution in oral cancer patients and controls

3.2.2: The CYP2E1 rs3813867 SNP genotype distribution in oral cancer patients and controls

3.2.3: The CYP2E1 rs2031920 SNP genotype distribution in oral cancer patients and controls

3.2.4: An LD map showing the pair-wise LD between the variants (SNPs) in the CYP2E1 gene

3.3.1: The \textit{EPHX1} rs1051740 SNP genotype distribution in oral cancer patients and controls

3.3.2: The EPHX1 rs2292566 SNP genotype distribution in oral cancer patients and controls

3.3.3: The EPHX1 rs2234922 SNP genotype distribution in oral cancer patients and controls

3.3.4: An LD map showing the pair-wise LD between the variants (SNPs) in the EPHX1 gene
3.4.1: The NAT2 rs1799929 SNP genotype distribution in oral cancer patients and controls

3.4.2: The NAT2 rs1799930 SNP genotype distribution in oral cancer patients and controls

3.4.3: The NAT2 rs1799931 SNP genotype distribution in oral cancer patients and controls

3.4.4: An LD map showing the pair-wise LD between the variants (SNPs) in the NAT2 gene
