

ACKNOWLEDGEMENT

I record with great pleasure my deep sense of gratitude to my thesis supervisor, Prof. Animesh Pramanik for his able guidance, encouragement and discussions during the course of this investigation. His guidance and constant help in every way throughout the whole tenure made the completion of the thesis possible.

It is good opportunity to thank my group members, Dr. Priyabrata Roy, Dr. Sudipta Pathak, Dr. Subhendu Maity, Dr. Ashis Kundu, Mr. Chandan Bodhak and Mr. Sayan Mukherjee, Mr. Subhro Mondal for their generous co-operation and help to make my work successful. I am also very much grateful to my lab-seniors Dr. Soumen Sarkar and Dr. Pradyot Koley.

I am thankful to Mr. Subhrangshu Chatterjee for recording NMR and Mr. Sourav Chattopadhyaya for recording IR.

I am also grateful to my friends Mr. Dibyendu Mondal, Mr. Soumavo Ghosh, Mr. Kaushik Sarkar, Mr. Aparajeo Chatterjee, Mr. Krishnendu Das, Ms. Nairita Hari for their help and support during the challenging moments of my research life. I also thank all the teachers and staffs of Department of Chemistry, University of Calcutta.

I also wish to acknowledge University Grant Commission (UGC), New Delhi for providing research fellowship (JRF and SRF) and the University of Calcutta for providing financial support for my research work.

I would like to thank my beloved Ms. Rima Bhowmick for her understanding and love for the past few years. All of your continued support, suggestion and company are deeply appreciated.

Finally, express my heartfelt gratitude to my mother Mrs. Kanan Debnath; my elder sisters Mrs. Rudrani Debnath (Manna) and Mrs. Moumita Debnath (Pal) due to their continuous encouragements, interest and patience during this tenure.
