# Contents

## Chapter 1

**Review of literature**

1.1. Introduction
1.2. Endometriosis
1.3. Matrix metalloproteinases
1.4. Pathophysiology of endometriosis
1.5. Role of MMPs in endometriosis
1.6. Alternative therapy for endometriosis-Curcumin

## Chapter 2

**Involvement of matrix metalloproteinase-2 in angiogenesis during progression of ovarian endometriosis**

2.1. Introduction
2.2. Objectives
2.3. Materials and methods
2.4. Results
2.5. Discussion

## Chapter 3

**Regulation of MMP-1 and TIMP-3 in the development of ovarian endometriosis**

3.1. Introduction
3.2. Objectives
3.3. Materials and methods
3.4. Results
3.5. Discussion

## Chapter 4

**Involvement of Matrix metalloproteinases in mouse model of endometriosis: effect of curcumin**

4.1. Introduction
4.2. Objectives
4.3. Materials and methods
4.4. Results
4.5. Discussion

## Chapter 5

**Conclusion**
