ACKNOWLEDGEMENTS

In the Name of Allah, Most Gracious, Most Merciful and Peace be upon the last of Prophets, Prophet Muhammad (S.A.W.)

To commence with, I pay my bow to ALLAH, the almighty to have bestowed upon me good health, courage, inspiration, zeal and the light. After ALMIGHTY ALLAH, this thesis became successful only with the endless and generous support of many people. There are some people who made this travel easier with their words of encouragement and more intellectually satisfying by offering the genuine advices at appropriate times. I would like to express my sincere appreciation to all those who gave me the hope to complete this thesis.

First of all, I express my sincere and deepest gratitude to my supervisor, Professor Bilqees Bano, Department of Biochemistry, Aligarh Muslim University, Aligarh. I feel proud to have worked under her guidance. Her trust and tireless enthusiasm has provided me with the strength and courage to carry on with my studies especially at times of crisis. Her wide knowledge has been of great value for me. She encouraged me constantly and provided full support so as to make this humble effort into a fruitful success.

I owe my genuine gratitude to Chairman, Prof. Riaz Mahnoo, and teachers of the Department of Biochemistry, Faculty of Life Sciences, Aligarh Muslim University, Aligarh, for providing me with the necessary facilities to carry out my research work.

I sincerely express my gratitude for respectful teachers Prof. S M Hadi, Prof. A N K Yusufi, Prof. Masood Ahmad, Prof. Quyyum Husain, Prof. Imrana Naseem, Prof. M Tabish, Prof. Saleem Javed, Dr. Fahim Halim Khan, Dr. Farah Khan and Dr. Abgeena Naeem for their timely help and support.

I take this opportunity to sincerely thank rest of my beloved teachers whose knowledgeable teachings, blessings, constant support and encouragement made me what I am today.
Further I take this opportunity to express my deep sense of gratitude to my seniors, Medha Aapa (source of inspiration), Samreen Aapa, Kaiser Bhai, Nisar Bhai (Always ready to help), Ahmed Bhai, Syed Bhai, Amir. H Bhai, Tariq Bhai, my batch mates Farheen, Farhan Bhai, Shadab Bhai, Arif Bhai, Maroof Bhai, Aasim Bhai, Furqan Bhai, Hassan Bhai, Misha, Zeba and my jouniors Nazim, Samra, Neha, Nikhil (for your valuable advice and your words “arey ho jayega” was such a stress relieving), Atif, Ajaz, Gufran, Sharmin and others for their cheering presence and friendly nature.

I owe my most sincere gratitude to my lab mates Azad Bhai (such a wonderful person, thanks for all that love and care, you were always there for me), Sheraz Bhai, Amir Bhai, Waseem, Shumaila, Anna, Azaj (sweet as honey), Anas (kool adorable dabang) and Faizan for their co-operation, unconditional support, love, care and enlivening the lab environment.

I express my hearty gratitude to Qadri Ovais for his unconditional support, valuable advice, helping me to take right decision at the right time, Altaf Bhai for his utmost care and support, Basharat Yousuf for tolerating me, my anger and providing me a constant support, Lateef for all that love and care. You guys have taught me a lot. Without you this journey would have been tough for me. You people served as my stress busters. I always felt light and relaxed in your company. Thanks for being there for me.

I would like to thank the non teaching staff of the Dept. of Biochemistry for their timely help and support. The financial assistance from ICMR (No. 52/12/2011-BMS), New Delhi is also thankfully acknowledged. I am grateful to those who helped me in providing the technical support and experimental recourses for my research, especially south campus Delhi University and USIF, A.M.U, Aligarh, staff for the convenience that they provided.

I am indebted to the platform, Aligarh Muslim University, provided me, sheltering me under her wings and giving me a chance to accomplish my dreams and contribute a small part to accomplish its founder Sir Syed Ahmad Khan’s dream. I am fortunate to
have spent a great time of my life at this place and earn many friends and well-wishers.

I have no words to express my gratitude to my family for their constant encouragement, support, prayers and love. I dedicate all my success to my beloved parents (Mohammad Tahir and Shaheena Parveen); it is their patience, sacrifice and prayers which are bound in this thesis. I owe my most sincere gratitude to my brother Tufail Tahir and my sister-in-law Afshan Feroz for all their love, care and understanding. Big thanks to Ashar for coming in my life and making it beautiful the way it is.

Lastly, I owe thanks to the very special person, my fiance, Anna Feroz for her continued and unfailing love, support and understanding during my pursuit of Ph.D. degree that made the completion of thesis possible. You were always around at times I thought that it is impossible to continue, you helped me to keep things in perspective. I greatly value your contribution and deeply appreciate your belief in me.
