ACKNOWLEDGEMENTS

DEDICATED TO MY BELOVED PARENTS
“Mrs. P. Geetha” & “Mr. V. Duraiswamy”

I would like to initiate acknowledgements by thanking Thy Lord Almighty without whom even a single thing in this world is not possible.

It gives me enormous pride and immense pleasure to show my sincere regards and deepest sense of gratitude to my Respected Supervisor Dr. C. Sheela Sasikumar, Chief Scientific Officer, Dept of Cellular & Molecular Biochemistry, Frontier Mediville, Elavur, Gummidipoondi. Ma’am, I am deeply in debt to you for the encouragement, the knowledge that you shared the parental affection and sharing your valuable time with us amongst your entire busy schedule. The scientific experiences and the words of inspiration that you have shown and shared with me will never fade out of my memory during this lifetime and will always be cherishable.

I express my sincere gratitude to Dr. K. M. Cherian, known as the Hand of God, Chairman and CEO, Frontier Lifeline & Dr. K. M. Cherian Heart Foundation, for sharing his valuable experiences and teaching us the importance of life.

I profoundly thank Dr. Sanjay M. Cherian, Junior Cardiac Surgeon & Vice President, Frontier Lifeline & Dr. K. M. Cherian Heart Foundation for his valuable support, inputs and innumerable discussions to carry out this research work.

I like to thank Ms. Sandhya M. Cherian, Vice President, Frontier Mediville for her wonderful support and encouragement throughout my research work.

I grab this opportunity to extend my heartfelt thanks and in debt gratitude to my teacher Dr. R. Uma, Assistant Professor, Dept of Biochemistry, Dwaraka Doss Goverdhan Doss Vaishnav College, Chennai for her constant encouragement and mental support.

I acknowledge Dr. P. Muralidharan, Professor and Head, Department of Pharmacology, C. L. Baid Metha College of Pharmacy for approval of small animals and
teaching me all the ethical ways of animal handling and experimentation for the present investigation.

I would like to thank my friends and well wishers Dr. N. R. Senthil, Assistant Professor, Centralised Clinical Laboratory, Madras Veterinary College, Chennai, Dr. Isai Mathivanan, Assistant Professor, Dept of Zoology, Holy Cross College, Trichy and Dr. Karthikeyan Subbarayan, Institute of Medical Immunology, Martin Luther University Halle-Wittenberg, Germany for their constant support.

I would like to thank my friend Mr. S. Devanand, Dept. of Cellular & Molecular Biochemistry, Frontier Mediville, who has almost been there with me throughout all my tough times during this research work. I thank my colleagues and friends Miss. N. Sridevi and Miss. Sneha Paul for their affection, help and sincere suggestions throughout the study.

I am also thankful to Mrs. Sheerin Begum Naser, Dr. Balasundari, Dr. Senthil Kumar, Mrs. Vimala, Mrs. Lakshmi, Mrs. Ranjani, Mrs. Lavanya and other staffs of Frontier Lifeline and Dr. K. M. Cherian Heart Foundation for their support in lab work and cooperation.

I would like to articulate my deepest gratitude to my best friend Miss. V. Geetha Balasubramaniam, PhD Scholar, CBT, Anna University for her encouragement and constant support.

Last but not least, I could not have written these acknowledgements if it was not for unconditional love from my Mother, Father and my beloved sisters, which helped me to pursue this research work.

There are many others whose name flashes across my mind whom I am grateful in making this thesis a success. It would not be possible to name them separately but I am conscious of my gratitude and indebt to all of them collectively.

Mr. Anand D
