ACKNOWLEDGEMENT

I am privileged to work under the supervision of Dr. M.S. Shekhar, Principal Scientist, Nutrition, Genetics & Biotechnology Division, Central Institute of Brackishwater Aquaculture (CIBA), Chennai, and very much thankful for his continuous inspiration, never ending enthusiasm, fruitful discussion and patiently correction of my papers and thesis and for constant motivation towards the successful completion of my research in the field of shrimp pathogenesis, immune genes and their role in diseases.

I would like to express my deep sense of gratitude to Dr. K.K. Vijayan, Director, CIBA, Chennai, and Dr. A.G. Ponniah, former Director, CIBA, Chennai, for providing all the facilities to carry out my research work and the support given.

I am immensely thankful to Dr. G. Gopikrishna, Head, Division of Nutrition, Genetics & Biotechnology Division, CIBA, Chennai for his keen interest, valuable suggestions in planning my research work and encouragement extended to me throughout the period of my study.

I deem it a great privilege to thank sincerely and whole-heartedly Dr. P. Kalaiselvi, Assistant Professor, Dept. of Medical Biochemistry, University of Madras, Taramani, Chennai, for her valuable guidance and constant encouragement as a member of my Doctoral Committee.

I sincerely thank Dr. Subhendu Kumar Otta, Senior Scientist, Aquatic Animal Health & Environment Division, CIBA, Chennai for guiding me histopathological studies.

I would like to thank Dr. S.M. Pillai, (Retired) Principal Scientist, CIBA, Chennai and Prioritization Monitoring and Evaluation Cell (PME), for unstinting support extended to me in all administrative processes of my Ph.D., work from registration to the submission of thesis.

My sincere thanks to Dr. K. Vinaya Kumar, Scientist, CIBA, Chennai for his friendly support and assistance for analysis of statistical results. My special thanks to Dr. C.P. Balasubramanian, Principal Scientist, Dr. Sherly Tomy, Senior Scientist, and Dr. Shivamani Scientist, CIBA, Chennai for their support.
The financial assistance provided Department of Biotechnology, India for granting me Senior Research Fellowships in the project entitled “Molecular studies on sequential pathogenesis of WSSV and defence mechanism in Penaeus monodon” is gratefully acknowledged.

My special thanks to Dr. K. Kalaimani, (Retired) Principal Scientist, Aquatic Animal Health & Environment Division, CIBA, Chennai, and V. Karunambal for their moral support.

I take immense pleasure in thanking the shrimp farmers for the supply of experimental shrimps whenever necessary. I thank Mr. Ramadas to help me in getting shrimps. I also thank Mr. K. Kumar and Mr. Santhosam Supporting Staff, CIBA for their valuable assistance in project work.

My sincere thanks to my respective seniors Dr. S. Rajesh, Dr. M. Dillikumar, Dr. J. Kiruthika and my friends P. Sai Kirthi, Nithoon James, Nishant Dubey, P. Saravanan, Jancy Merlin, Swathi, Preethy and Raja for their constant encouragement, valuable guidance throughout my research work and in completion of my thesis. I thank all my friends and colleagues in CIBA for their constant encouragement and always being there for me.

I am extremely grateful to my family members, especially my mother A. Valarmathi and my inlaws M. Nallathambi & Eswari without their support the thesis could not have been possible. I would like to thank my brother A. Gopinath whose unstinting support and encouragement gave me enormous energy to work and study.

Finally, and most prominently, I would like to thank my husband Dr. N. Chakravarthy & my beloved daughter Ashmi kutty for their endless support, and encouragement. This would have been impossible task without them and I am exceedingly lucky and blessed to have such persons in my life. I would like to dedicate the thesis, to my beloved daddy late V. Anbalagan.

As everything begins and ends in God, I conclude this acknowledgement by thanking GOD for everything.

A. Gomathi
