ACKNOWLEDGEMENT

I owe profound sense of gratitude and indebtedness to Prof. Rajani Kanta Behera, Professor of Chemistry, School of Chemistry, Sambalpur University, Jyoti Vihar, Burla for his constant encouragement and guidance throughout my research investigation.

I am very much grateful to Prof. Baman Chandra Acharya, Former Head of P.G. Department of Botany, Government (Autonomous) college, Rourkela and at present Professor of Botany and Head of P.G. Department of Botany and Biotechnology, Khallikote College (Autonomous), Berhampur for his day to day supervision and guidance throughout this investigation.

I express my thanks and gratitude to Prof. B.K. Mishra, Professor and Head School of Chemistry, Sambalpur University for giving me permission to carry out this research work in his department and for his encouragement throughout the course of the investigation.

I express my sincere gratitude to Sri B.N. Bhol, Senior Environmental Scientist, Dr. R.K. Mishra, Asst. Environmental Scientist of Orissa State Pollution Control Board (OSPBC) Bhubaneswar, and Dr. P.K. Prusty, Senior Scientist, Department of Forest and Environment, Government of Orissa, Bhubaneswar for giving necessary permission to use Library of OSPCB, necessary guidance and help during the course of investigation.

I am also grateful to authorities of Regional office of OSPCB, Rourkela, Er. Simanchal Dash, Ex-Regional Officer, Dr. Anup Mallick, Asst. Environmental Scientist, Sri Soumendra Sahu and Sri S. Mallick for extending necessary laboratory facilities and constant help for my field visits and research investigation.

I express my sense of gratitude to Sri Sudhansu Sekhar Mohanty, Principal, Municipal College, Rourkela and Sri Sachindra Kumar Mishra, Ex-Principal, Ispat (Autonomous) college, Rourkela for their constant encouragement and help during the course of the investigation.

I am very much indebted to Dr (Mrs) Basanti Rath, Reader and Head of Department of Hindi, Ispat (Autonomous) College, Rourkela who for the first time introduced and encouraged me to conduct research work leading to the Ph.D degree. I also express my thanks to my colleagues at Ispat (Autonomous) College, Rourkela and Municipal College, Rourkela for their constant support and encouragement.
I am also very much thankful to Dr. B.K. Kindo, CDMO, Sundargarh, Dr. G.C. Patri and Dr. (Mrs.) Geetanjali Patri for their constant encouragement and help during the study of "Survey of Health Status" of this thesis.

I am indebted to Prof. S. K. Sahu, Professor and Head, Department of Environmental Science, Sambalpur University for his kind suggestions and advice while preparing this thesis. I am also especially thankful to Dr. P.K. Behera, Reader and Dr. N.K. Behera, Lecturer, School of Chemistry, Sambalpur University who have extended a lot of support during the preparation of the manuscript.

Mrs. Anupama Mishra, my wife, Miss Aishwarya Mishra, my daughter and all my family members are equally important for the successful completion of this work as they fully co-operated, encouraged and helped me at all stages.

The financial assistance in the form of an UGC minor research project received from University Grants Commission, New Delhi is gratefully acknowledged.

Place- Rourkela
