CONTENTS

Acknowledgment ........................................... i
Abstract ................................................... iii
List of tables .............................................. xvii
List of Figures ............................................. xx
Abbreviations .............................................. xxvi
Notations .................................................... xxvii

Chapter 1 Introduction ................................... 1
1.1 Aims of the research ................................ 2
1.2 Objectives of the study .............................. 2
1.3 Assumptions .......................................... 3
1.4 Lead to the study .................................... 4
1.5 Outline of the thesis ................................. 4
1.6 Organization of thesis ............................... 5

Chapter 2 Literature review .............................. 7
2.1 Existing studies on risk parameters ............. 7
2.2 geographic information system (GIS) .......... 12
2.3 study of risk criterions ............................. 13

Chapter 3 Theoretical analysis ......................... 20
3.1 Methodology of research design ................. 20
3.2 Objective function ................................ 21
3.3 Principal component analysis .................. 23
3.4 Causal techniques ................................ 27
3.5 Evaluations of models ............................. 31

Chapter 4 Study areas ................................... 37
4.1 Location and details of study areas ............. 37
4.2 Land use characteristics ............................ 41
4.3 Road network characteristics .................... 42
4.4 Data collection of risk criterions ............... 44
4.5 Data of Gaddiannaram municipality area .... 46
4.6 Data of Rajendranagar municipality area .......... 48
4.7 Data of Qutubullapur municipality area .......... 50

**Chapter 5 Application of principal component analysis** .......... 54
5.1 Algorithm for PCA analysis .......... 54
5.2 Analysis of Gaddiannaram municipality .......... 57
5.3 Analysis of Rajendranagar municipality .......... 65
5.4 Analysis of Qutubullapur municipality .......... 72

**Chapter 6 Risk analysis and evaluation of risk criterions** .......... 80
6.1 Causal techniques .......... 80
6.2 Risk analysis for Gaddiannaram municipality .......... 87
6.3 Risk analysis of Rajendranagar municipality area .......... 121
6.4 Risk analysis of Qutubullapur municipality area .......... 172

**Chapter 7 Results and findings** .......... 227
7.1 Results of study areas .......... 227
7.2 Risk contributors .......... 227
7.3 Causal equations .......... 229
7.4 Percentage dependency of risk contributors .......... 230
7.5 Risk priority nodes .......... 232
7.6 Evaluation for causal models .......... 234
7.7 Findings of the study .......... 234
7.8 The following findings are observed from the Outcome of the research .......... 235

**Chapter 8 Summary, conclusion and further scope of work** .......... 236
8.1 Summary .......... 236
8.2 Conclusion .......... 238
8.3 Scope for further research .......... 241

**References**

**Journal paper publication**
List of Tables

Table 4.1: Details of wards in municipality .......... 40
Table 4.2: Adopted PCU factors for various types of vehicles .......... 45

**Gaddiannaram municipality area**
Table 4.3: Geometric characteristics .......... 46
Table 4.4: Traffic characteristics .......... 46
Table 4.5: Land use or road side characteristics .......... 47
Table 4.6: Utility characteristics .......... 47

**Rajendranagar municipality area**
Table 4.7: Geometric characteristics .......... 48
Table 4.8: Traffic characteristics .......... 48
Table 4.9: Land use or road side characteristics .......... 49
Table 4.10: Utility characteristics .......... 49

**Qutubuallapur municipality area**
Table 4.11: Geometric characteristics .......... 50
Table 4.12: Traffic characteristics .......... 51
Table 4.13: Land use or road side characteristics .......... 52
Table 4.14: Utility characteristics .......... 53

**Gaddiannaram municipality area**
Table 5.1 Input data .......... 57
Table 5.2 Standardized data .......... 58
Table 5.3 Covariance of data .......... 59
Table 5.4 Eigen vectors .......... 60
Table 5.5: Eigen values .......... 61
Table 5.6 Principal components .......... 63
Table 5.7 Feature vector .......... 64
Table 5.8 Derived new data .......... 64

**Rajendranagar municipality area**
Table 5.9 Input data .......... 65
Table 5.10 Standardized data .......... 66
Table 5.11 Covariance of data .......... 66
Table 5.12 Eigen vectors .......... 68
Table 5.13 Eigen values .......... 69
Table 5.14 Principal components .......... 70
Table 5.15 Feature vector .......... 71
Table 5.16 Derived new data .......... 71

**Qutubullapur municipality area**

Table 5.17 Input data .......... 72
Table 5.18 Standardized data .......... 73
Table 5.19 Covariance of data .......... 74
Table 5.20 Eigen vectors .......... 75
Table 5.21 Eigen values .......... 76
Table 5.22 Principal components .......... 78
Table 5.23 Feature vector .......... 79
Table 5.24 Derived new data .......... 79

**Gaddiannaram municipality area**

**Speed as major criterion**

Table 6.1 Risk contributors, coefficients and their dependency .......... 87
Table 6.2 Comparison of risk parameters .......... 91

**Headway as major criterion**

Table 6.3 Risk contributors, coefficients and their dependency .......... 98
Table 6.4 Comparison of risk parameters .......... 101

**Delay as major criterions**

Table 6.5 Risk contributors, coefficients and their dependency .......... 108
Table 6.6 Comparison of risk parameters .......... 111

**Risk priority links**

Table 6.7 Speed as major criterions risk priority links .......... 118
Table 6.8 Headway as major contributor risk priority links .......... 119
Table 6.9 Delay as major contributor risk priority links ........ 120

**Rajendranagar municipality area**

**Speed as major criterions**

Table 6.10 Risk contributors, coefficients and their dependency ........ 121
Table 6.11 Comparison of risk parameters ........ 126

**Headway as major criterion**

Table 6.12 Risk contributors, coefficients and their dependency ........ 138
Table 6.13 Comparison of risk parameters ........ 143

**Delay as major criterions**

Table 6.14 Risk contributors, coefficients and their dependency ........ 155
Table 6.15 Comparison of risk parameters ........ 159

**Risk priority links**

Table 6.16 Speed as major criterions risk priority links ........ 169
Table 6.17 Headway as major contributor risk priority links ........ 170
Table 6.18 Delay as major contributor risk priority links ........ 171

**Qutubullapur municipality area**

**Speed as major criterion**

Table 6.19 Risk contributors, coefficients and their dependency ........ 172
Table 6.20 Comparison of risk parameters ........ 177

**Headway as major criterion**

Table 6.21 Risk contributors, coefficients and their dependency ........ 188
Table 6.22 Comparison of risk parameters ........ 194

**Delay as major criterions**
