ACKNOWLEDGEMENTS

I find it difficult to give words to the sense of gratitude that I owe to people who have lent their helping hands, directly or indirectly, during the course of this study. I must apologize if I have not been able to do justice to the people who have been slipped out of my mind inadvertently.

First of all, I express my sincere and honest gratitude to my beloved supervisor Dr. Saumitra Mukherjee whose amiable guidance and constant inspiration during all phases of the present work enabled me to complete the work successfully. He instilled in me an aura of inspiration and gave me ample freedom to pursue this research work.

I am grateful to Prof. Kasturi Dutta, Dean, School of Environmental Sciences for providing me necessary facilities in carrying out the present work.

I am also grateful to former Deans, Prof. J. Subba Rao and Prof. D.K. Banerjee for providing me infrastructural facilities during their tenures in carrying out the present work.

I must thank Mr. D.M. Pawar, Mr. K.N. Deshmukh and Mr. Tribhuvan of Groundwater Survey and Development Agency, Alibag, Raigad for providing me groundwater level data and other information regarding the area of my study.

I express my sincere gratitude to my elder brother Mr. Ashis Kumar Das, who in spite of his busy schedule accompanied me to the fieldwork and bear with me all the inconveniences in exploring the difficult terrain of the Konkan coast.

I would be failing in my duty if I do not extend my thanks to Dr. R. Nagarajan of CSRE, IIT, Mumbai and Prof. R.L. Mishra, Head, Department of Botany, J.S.M. College, Alibag for their valuable suggestions during my field visit to Raigad.
I must not forget to thank my friends Devi Chand, Alok, and Govind who apart from providing me a constant source of inspiration, proved that "the friends in need are the friends indeed."

I owe a debt of gratitude to Mr. Satyajit Rath of ER & DCI, Min. of IT, NOIDA for helping me carrying out the GIS work.

I owe my thanks to Mr. Manoranjan Nayak, Mr. Pramod Kr. Singh and Mr. Abdul Azeem who being my seniors, extended their helping hands at a very crucial time of my work.

I am very thankful to my labmates, Pramod, Vijay, Venkat and Abhimanyu who apart from providing a conducive environment in the laboratory to carry out this work, also stood by me all along the period of this research work.

Man needs help, support and co-operation from others to be his best self. This final form of the research work is the outcome of the direct and indirect association of a host of special people who have encouraged and provided instinct support during my JNU life. Datu, Govind, Chitta bhai, Manu bhai, Vijay, Santosh, Bhagban, Sudesh, Ravi, Anirudh, Abhay, Sekhar, Narendra, Sutapa, Kadam, Jagdamba and many others have been a perennial source of support and encouragement.

My special thanks are due to my friends Anupam, Biswajit Rath and Biswajit Das provided me their gracious company and valuable suggestions whenever I wanted.

I also acknowledge my thanks to the University Grants Commission (UGC), New Delhi for providing me Junior Research Fellowship (JRF) and Senior Research Fellowship (SRF) during my tenure as a research scholar.

The role played by Mr. Dayaram Yadav in keeping my spirit up throughout the study is gratefully acknowledged.
Finally, I owe profound gratitude to my parents and all family members who not only provided me a constant source of encouragement but also did everything to make me concentrate on my research work.

New Delhi
December 2002

Anup Kumar Das
