Acknowledgements

I express my deep sense of gratitude to Dr. C. Das, Assistant Professor, Department of Mathematics, Regional Engineering College, Rourkela for introducing me to the Solid Transportation Problem and for his invaluable guidance and encouragement throughout all stages of this work.

My sincere thanks are due to Prof. S. Misra, Principal, R. E. College, Rourkela for permitting me to avail the necessary facilities of the institution for completion of this work.

I am grateful to Prof. A.K. Das, Head of the Department of Mathematics, R.E.Collage, Rourkela for his encouragement and advice.

My sincere acknowledgement is to Dr. R. N. Patel, (the then Principal, Rourkela Municipal College, Rourkela) and Dr. D. Misra, Principal, Rourkela Municipal College, Rourkela for giving me due permission to undertake this work.

I take the opportunity to thank Mr. K. Das for his excellent typing of the thesis.

The fondest thanks also go to my wife Prema. Words can not express the gratitude felt for her constant patience and understanding.
