The author wishes to express his deep sense of gratitude to Prof. P. K. Dash, Department of Electrical Engineering, Regional Engineering College, Rourkela, Orissa, India for his invaluable guidance, constant encouragement and enlightening discussions during the course of this research and preparation of this thesis.

I am thankful to the Principal, Regional Engineering College, Rourkela, for providing me the facilities for the research work.

My thanks go to the Indo-US project, titled - “An Expert System Based Integrated Energy Management System”, funded by the National Science Foundation USA and Centre for Intelligent Systems, Department of Electrical Engineering, Regional Engineering College, Rourkela, Orissa, India for which I could carry out my research work.

I convey my regards to the collaborator of the project - Prof. Saifur Rahman, Bradley Department of Electrical Engineering, Virginia Polytechnic Institute & State University, Blacksburg, Virginia, USA.

I would like to thank Dr. J. K. Satpathy, for many helpful discussions. I am especially thankful to Dr. G. Panda and Mr. A. Routray, for their valuable suggestions. My thanks also go to Mr. D. P. Swain for helping me during various stages of the work.

I acknowledge with gratefulness the inspiration and moral support of my parents and thank my younger sisters Sujata and Srilekha for their encouragement during the course of this work.
