ACKNOWLEDGEMENT

I wish I could express my gratitude individually to every one who have helped me in this endeavour but due to the paucity of space it is difficult to carry out my wishes to all of them. Although the list is partial, I would like to mention the following persons and institutions to whom among others I am indebted.

To my supervisor Dr. B. Behera, Professor in Chemistry, Sambalpur University I express my deepest gratitude without whose persistent end keen personal interest, encouragement and meticulous guidance at every stage of this attempt, it would not have been possible for me to bring this work to fruition.

I convey my hearty regards to Dr. V. Chakravorty, Professor in Chemistry, Utkal University for his kind permission and help to carry out some of my experimental works in his laboratory. I owe special thanks to all the members of the Department of Chemistry, Panchayat College, Baragarh for their cooperation and help towards the initial part of my research work for which this work could be completed with promptness and high efficiency.

I wish to place on record my deep sense of gratitude to Dr. D C. Dash, Dr. A. Panda, ex-heads of the Department of Chemistry and Dr.R.K. Behera, Head of the Department of Chemistry, Sambalpur University, Jyoti Vihar for their hearty encouragement and kind permission to carry out the investigation in the Physical Chemistry research laboratory of the Department.

The constant encouragement and valuable help of Dr.N.K. Mohanty, Dr.B.K.Mishra, Dr. A.K. Panda, Dr. P. Mishra, Dr.P.K.
Behera, Dr. A. Mohapatra and Dr. A.K. Behera, Department of Chemistry, Sambalpur University is gratefully acknowledged.

I have largely been benefited from the spontaneous help from Dr. M. Patra and my co-researcher B.R. Pujari of Department of Chemistry, Sambalpur University, when I needed it the most. I thank them.

I am grateful to Dr. P.C. Mishra, Head of the Department of Environmental Sciences, Sambalpur University for his help at the time of writing my thesis.

I am extremely grateful to University Grants Commission, New Delhi for granting me teacher fellowship to carry out this research work.

I convey my hearty thanks to Dr. B.K. Mahapatro, School of Life Sciences, Sambalpur University for his help and patience in computer shaping of the thesis.

Last but not least I would like to thank my parents, wife and son Iju for their encouragement, love, affection, unfailing sacrifices and patience during the entire period of my research till the final submission of this thesis.
