ACKNOWLEDGEMENT

The author expresses his deep sense of gratitute and profound thanks to Dr. S.Pani, Ph.D (London), Retired Professor of Chemistry, formerly Professor and Head of the Department of Chemistry, Sambalpur University for his inspiring guidance, constant encouragement and valuable suggestions during the investigation. He also wishes to record his debt to Dr. K.C. Satpathy, Ph.D. for his valuable suggestions and helpful assistance during the investigation.

The author is gratefully indebted to Prof. G.B. Behera, D.Sc., Head of the Department of Chemistry, Sambalpur University for his encouragement and permission to work in the research School.

Grateful thanks are due to Dr. B. Behera, Dr. N.K. Mohanty, Dr. A. Nayak, Dr. B.K. Sihna of the Chemistry Department of Sambalpur University and Dr. R.C. Das, Professor and Head of the Department of Chemistry, University College of Engineering, Burla for their inspiration.

The author records his deep sense of appreciation to the University Grants Commission, New Delhi (India) for the award of Teacher Fellowship.

The author also wishes to express his deep sense of gratitude to the Government of Orissa for the sanction of study leave for a period of three years to carry on this investigation.
Thanks are due to Sri D. Mishra, Sambalpur University for his constant help in the laboratory and to Sri M. B. S. Reddy for typing the manuscripts.

Lastly the author is thankful to Sri B. N. Patel, Sri H. P. Mishra and to all other friends who constantly gave him company and inspiration.

He desires to thank his wife 'Promodini' to whom he owes more than he can possibly express.

Department of Chemistry, Sambalpur University, Jyotivihar, Burla, (Orissa), India.
