ACKNOWLEDGEMENT

The most important calculation of life is to count the blessings of different people linked to make a work, the preeminent. It is more difficult to encrypt their assistance in language. My birth on the International Labour Day, my first job in NCLP and current employment with Ministry of Labour and Employment (CBWE) may be the few factors, which enable me to think for these innocent’s agonies.

I uttered my feelings about these working buds before my guide, governess and guru, Dr. Nanda Kishor Mahakud. His trust assured me to go ahead with this noble cause. This study work is the outcome of his consistence and thought provoking ideas, high esteemed social values and non compromising attitude towards quality.

Sri V. Parmeswaran, Deputy Director General, Central Statistical Office, New Delhi and Former Director, Central Board for Workers Education has allowed me to take this research work with total dedication, hard work and a missionary zeal. His help cannot be put in black and white.

It will give me pain, if I will dilute the expertise and technical knowhow of Dr. Rajendra Gardtia and Dr. S. Sahoo, which has given a professional approach to this work. Information shared by Sri Bhaskar Panda, Assistant Labour Commissioner, Bhubaneswar, has added value, color and life to the research work.

Field experiences of Sri Sushil Kumar Dash of SEWA, Jharsuguda and Sri Ashok Panigrahi of SARC, Sambalpur has helped me to resolve the problems encountered during data collection.
Sri Champswar Mishra, Library and Information Officer, Chandragupta Institute of Management, Patna has provided me latest information on child labour issue. His support pushed me to ahead, leaving all hurdles far behind.

Love, affection and help showered by Collectors, District Labour Officers, Project Directors, Field Officers, Block Development Officers, NGOs, Employers, Public, Teachers, Child Labours, Mainstreamed Child Labours and Parents of Child Labours had boost up my body and mind.

Unseen blessings and untold encouragements of my parents, Sri Lingaraj Mishra and Smt Girijarani Mishra, work like a power house, which has provided me enough energy to complete this study in time.

It would be bias, if I will not put my appreciation on record, for two ladies, my considerate wife Puspa, and adorable daughter Astha, who always stand with me throughout the project work.

Helping hands of my friend and associates Sri. Prakash Chandra Mishra and Smt. Sasmita Bhatta of Central Board for Workers Education, Rourkela pulled me out from difficult hours; I have come across during this research work.

Unknowingly, if I have overlook anyone may assume that, it is not intended but as oversight of my mind.
