Declaration

I, Mr. Nabin Chandra Dash hereby declare that this copy of Ph.D. thesis is submitted to Sambalpur University for the partial fulfillment of the requirement of my doctoral degree in Life sciences (Ecology). The problem of my research study is "Comparative eco-physiological studies on tropical earthworms from an eucalyptus and a sal forest of Orissa, India." I have done all the field and laboratory work during the period 1987 to 1995. Due to unavoidable circumstances, I could not submit the thesis earlier and now by the special permission by our honourable Vice-chancellor, I am submitting this independently. This is an original piece of work never submitted to any other University for the award of any degree or diploma. The published papers related to this work are enclosed here with the thesis.
