ACKNOWLEDGMENT

I express my deep sense of gratitude to my supervisor Dr. M.C. Dash, Ph.D (Calgary), F.N.A.Sc., Professor, School of Life Sciences, Sambalpur University and now Chairman, Orissa State Pollution Control Board, Bhubaneswar and Dr. P.K. Mishra, Ph.D (Sambalpur University), ex-head of the department of Zoology, Larambha College, for exposing me to the problems of amphibian ecology, for successful guidance, constant encouragement, valuable criticism and endless moral support through the completion of this work.

I am greatly indebted to Dr. T.V. Rao, Dr. N. Behera, Dr. B.K. Mahapatro for their generous help, suggestion and constructive criticism during the course of this investigation.

I am thankful to the Zoological Survey of India, Calcutta for identification of my Frog species and UGC, Delhi for granting me teacher-fellowship and Principal, Larambha College, Sri S.C. Pujari for allowing me to carry out the experiments in the Zoology laboratory of the college. I am also thankful to Dr. S.N. Mohanty and Dr. S. Swain (Scientists) of Inland Freshwater Aquaculture, Kaushalyagang, Bhubaneswar, Orissa for helping me to conduct the Bomb Calorimeter analysis.

Sincere thanks are due to Sri J.K. Mahanta, Sri S.K. Swain, Sri S.C. Pujari, Sri N. Rath, Sri A.K. Patti, Sri S. Bhorasagar for their co-operation and encouragement during prosecution of this work.

I personally owe a sense of tremendous debt to my husband Mr. B.K. Nayak for his constant inspiration in bringing this thesis into the present shape. I am also thankful to my daughter and other family members for their encouragement during the work.

The Final Artist who shaped my work into flawless, immaculate letters of print is Dr. B.K. Mahapatro, School of Life Sciences, Sambalpur University, my thanks to him
