# CONTENTS

## Chapter 1: Dye-surfactant Interaction: A Review

1. Classification of Dyes
   1.1. Aggregation of Dyes
   1.1.2. Solvatochromism
2. Interaction in Organized Assemblies
   2.1. Behaviour in Micelle, Reversed Micelle and Microemulsions
   2.2. Behaviour in Cyclodextrin

References 63

## Chapter 2: Scope and Summary of the Work

References 75

## Chapter 3: Experimental

3.1. Materials
   3.1.1. Solvents
3.2. Synthesis
   3.2.1. Synthesis of 1,4- Dimethyl Pyridinium Iodide
   3.2.2. Synthesis of 1-Propyl-4-methyl Pyridinium Bromide
   3.2.3. Synthesis of 1- Methyl-4- (p- N, N-Dimethyl Amino) Styryl Pyridinium Iodide
   3.2.4. Synthesis of 1-Propyl-4- (p-Dimethyl Aminoc) Styryl Pyridinium Bromide
   3.2.5. Synthesis of N- Methyl-γ- (4-Hydroxy Styryl) Pyridinium Iodide
   3.2.6. Synthesis of N- Methyl-γ- (2-Hydroxy Styryl) Pyridinium Iodide

References 105

## Chapter 4: Interaction of N-Alkyl Styryl Pyridinium Dyes with Anionic Surfactants

4.1. Scope of the Work
4.2. Experimental
   4.2.1. Spectroscopic Measurements and Techniques
4.3. Result and Discussion
   4.3.1. Solvent Effect
   4.3.2. In Presence of Aqueous SDS Medium
   4.3.2.1. Absorption Spectra
   4.3.2.2. Emission Spectra
   4.3.3. In Presence of AOS and LABS in Aqueous Medium
   4.3.3.1. Interaction with AOS
   4.3.3.2. Interaction with LABS
   4.3.3.2. Emission Spectra

References 150
### Chapter 5: Dissociation Constants of some N-Alkyl Hydroxy Styryl Pyridinium Bromides in Surfactant Solutions

5.1. Methods for Determination of Ionization Constant
   - 5.1.1. Spectrophotometric Method

5.2. Nature of pKa Values in Organized Assemblies

5.3. Scope of the Work

5.4. Experimental
   - 5.4.1. Synthesis
   - 5.4.2. Preparation of Buffer Solutions
   - 5.4.3. Spectroscopic Measurements and Techniques
   - 5.4.4. Instrument Used

5.5. Absorption Spectra
   - 5.5.1. Results
   - 5.5.2. Discussion
     - 5.5.2.1. Absorption Spectra in MeOH-H2O Medium
     - 5.5.2.2. Absorption Spectra in Micellar Media

5.6. Acid dissociation Constant of Dyes
   - 5.6.1. Results
   - 5.6.2. Discussion

References

### Chapter 6: Effect of NaCl on Conformational/Structural Change of Sodium Dodecyl Sulphate (SDS) Micelle

6.1. Experimental

6.2. Results and Discussion
   - 6.2.1. Absorption Spectra
   - 6.2.2. Emission Spectra
   - 6.2.3. Effect of Salt

References
