AKNOWLEDGMENTS

“Gratitude is the memory of the heart.” ~Jean Baptiste Massieu

Completing my Ph.D. degree is probably the most challenging task of my life. The best and worst moments of my doctoral journey have been shared with my near and dear ones. It has been a great privilege to do Ph.D. from the Department of Computer Science and Applications, Kurukshetra University, Kurukshetra—an Elite and Reputed Department. First and foremost, I bow my head at the altar of Almighty who bestowed me with His blessings and gave me the intellect and strength to complete my research work.

If it was not for my thesis adviser, Dr. Kanwal Garg, I would never have a chance to start my research and finish my dissertation. Sir gave me the great opportunity to work – close with him and other members of the department of Computer Science and Applications. In my four years in the lab, I learned so much from him in every aspect that I do not even know where to start. Conducting research, writing papers and resolving business situations are only a small fraction of it. I salute his forbearance, able guidance, vision, encouragement and necessary advice. He has been a strong and supportive guide to me even though I lost hope of completing the research work. I would like to thank him for his untiring support, enthusiastic supervision and serving as a real mentor to me. He has been kind enough to grant me freedom to work independently.

Throughout the journey of my Ph.D. years, I got enormous support from several outstanding individuals from Department of Computer Science & Applications, Kurukshetra University, Kurukshetra. I would like to sincerely thank other staff members of Department of Computer Science & Applications, Kurukshetra University, Kurukshetra, for their support and encouragement including Dr. Rajender Nath (Chairperson), Prof. R.K. Chauhan, Prof. Shuchita Upadhyaya, Dr. Rakesh Kumar, Dr. Pradeep Mittal, Dr. Chander Kant, Dr. Ramesh Kait, Mrs. Monika, Dr. Vishal Verma, Dr. Sanjay Tyagi and all other teaching and non-teaching staff.

I would like to thank my parents for their love which supports me all the time in finishing up my dissertation. Without them and their love, what has happened and what-happening would all be impossible. For this, I am forever their debt.

Apart from being my intellectual partner, my husband M. V. Yadav has been my emotional base too. He had been very encouraging and co-operative throughout my doctoral work. I convey my heartfelt thanks to him. Not to forget my kids – Naman and Pratyaksh, whom I
have ignored the most these years. In spite of this, they have been very loving and patient. I owe a lot to them and dedicate my research to them.

Ruchika Yadav
