ACKNOWLEDGEMENTS

The author gratefully acknowledges the award of Teacher Fellowship under Faculty Improvement Programme by the University Grants Commission, New Delhi, in the Post Graduate Department of Geology Centre of Utkal University to work under Professor Dr. S. Acharya. The present work embodies the results of the investigations made by the author during the tenure of the fellowship.
I owe my deepest sense of gratitude to Professor Dr. S. Acharya, Head of the Department of Geology of Utkal University, who gracefully favoured the valuable guidelines of the work, with continuous and constant supervision of the work, excessive strenuous field checks, critical appraisal of the text, overall encouragement and sympathy for the work. It is not possible to express my gratitude to Prof. Acharya within few sentences, that I owe to him, who, with his constant ceaseless effort, has kept up the spirit of work and was anxious to see the completion of the work within stipulated period.

The author is grateful to Dr. B. Dash, Professor of Geology, Utkal University; Dr. N.K. Mahalik, Reader in Geology, Utkal University; Dr. B.C. Patro, Lecturer in Geology, Ravenshaw College, Cuttack and Sri K.L. Pandya, Lecturer in Geology, Utkal University, for their valuable suggestions and encouragement in this work. They have extended their helping hands at the various stages of my work, for which I express my gratitude.

I am extremely thankful and grateful to Professor T.C. Bagchi, Retired Director of Indian
Institute of Technology, Kharagpur, for his valuable suggestions and encouragement during his visit to Bhubaneswar in 1981, which has been a source of great inspiration in the completion of this work.

Dr. P.K. Banerjee, Director, Geological Survey of India, Orissa, Mr. V.N. Marty, Director, Geological Survey of India, Hyderabad, and Mr. R.N. Patnaik, Senior Geologist, Geological Survey of India, Orissa, deserve a word of special thankfulness for their keen interest and kind help in this investigation.

I owe my special gratitude to Sri K.K. Misra, Mines Manager, Orissa Mining Corporation, Sri P.K. Rath, Senior Mining Officer, Mines Directorate, Orissa, Sri B.D. Rath, ex-Deputy Director of Mines, Senior Geologist, Mines Directorate, Orissa, Sri R.C. Maharan, Geologist, Mines Directorate, Orissa, and Sri N.N. Jena, Senior Geologist, Orissa Mining Corporation, for providing necessary accommodation, many other facilities, extending ungrudging help and sharing the difficulties during my work. I am further highly thankful to the staff of Khandbandha, Iron Ore Mine of Orissa Mining Corporation, who have extended a very cordial and hearty dealings with me and have always extended a
helping hand during the field investigations. I am extremely thankful to Sri P. Bhanjo, Regional Manager, Orissa Mining Corporation, for his kind help. I am extremely grateful to the authorities of Tata Iron & Steel Co., for extending their kind and generous help during my work at Joda.

A special word of appreciation is due to Sri Parna Chandra Kar, of P.G. Dept. of Geology of Utkal University, for his patient drafting of maps, charts and figures and to Sri Santosh Kumar Misra, Regional Research Laboratory, Bhubaneswar, Orissa, and Sri Manas Ranjan Mohapatra of P.G. Dept. of Geology, Utkal University, in preparation of photographs.

I am extremely thankful to the authorities of Utkal University for the financial help rendered by them in the operation of Teacher Fellowship Scheme in the P.G. Department of Geology and especially to me, and the authorities of the Education Department of Orissa Government in providing me the necessary facilities, without which it would not have been possible for me to complete the work.

A note of special thankfulness is due to many of my friends, especially Dr. R.N. Misra, Senior Geologist,
officiating Director of Karnataka Circle, Geological Survey of India, Bangalore, Mr. P.P. Singh, Lecturer in Geology, Ravenshaw College, Cuttack, Mr. B.K. Das, Research Assistant, P.G. Dept. of Geology of Utkal University, Mr. H.K. Sahoo and Mr. G.S. Lenka, Teacher Fellows, Department of Geology, Utkal University, for their constant help in the field as well as in the laboratory, sympathy, inspiration and encouragement, without which it would not have been possible to successfully complete the work.

I am extremely indebted, thankful and grateful to Mrs. S. Acharya for her inspiring encouragement, kind treatment and patient tolerance of untimely and frequent disturbances during the work.

Last, but not the least, I am extremely thankful and indebted to Smt. Salila, my wife; and my revered mother, who have undertaken all sorts of difficulties to see this work through. My wife's loving mien was and is a permanent source of inspiration for my all efforts in life.

(R.P. Mohanty)
