ACKNOWLEDGEMENTS

I am greatly indebted to Prof. Dr. K.V. Rao, M.A., M.Litt., D.Litt. for his valuable suggestions and comments on the basis of which this thesis has been revised and resubmitted to the University. While revising the Chapters, the author acknowledges the valuable issues and points raised by the esteemed Prof. Dr. Rao in his report. In fact the thesis could assume a new colour and strength by meeting the points raised in his suggestions. Additionally, I could improve and rewrite the chapters with the help and assistance of my old Professor Dr. B.B. Jena of Berhampur University, who was kind enough to help me in understanding, and for deciphering the comments of the esteemed Prof. Dr. Rao. With Dr. Jena's careful scrutiny and clearance I have been able to resubmit this thesis in the present form.

I am very much grateful to Dr. B.K. Patnaik, my guide for the remarkable fortitude shown by him to guide me and do the painstaking task of going through this thesis at draft stage and suggesting many innovative ideas despite his busy schedule.
